

STATCOM P-12 OUTREACH 2005 Activities

- April 2005: Spring Fest 2005
- April 2005: Purdue P-12 Engagement Forum
- July 2005: Camp Calcium
- August 2005: Purdue Day at the Indiana State Fair
- October 2005: Purdue Homecoming

Cheng Zheng, Statistics Ph.D. student, demonstrates how to calculate the chances of winning a lottery game to some children at the Indiana State Fair 2005.

Participants at Spring Fest 2005 learned how to create a bar graph to see how the M & M colors were distributed within their bags. Some displayed their graphs in the tent after finishing (left). Lingmin Zeng, Statistics Ph.D. student, assists one young girl (above).

Adam Reeger, Statistics master's student, enters data from the Cricket Spitting Contest at Spring Fest 2005.

Martina Muehlbach, Statistics Ph.D. student, explains the chances of winning a lottery game to some children at Spring Fest 2005.
