JSM QUICK GUIDE

You may have noticed the printed program is lighter this year.

It's not your imagination! As JSM has grown and attendees have increasingly turned to their smart phones and tablets for information, we realized a new JSM Quick Guide would help you more quickly find the general information you're looking for, such as floor plans, featured events, and the overall JSM schedule. The complete program can be found online and in the JSM app, where you can even build a custom schedule and find up-to-date details for JSM's more than 600 sessions. By developing each medium with its strengths and weaknesses in mind, we aim to offer attendees a more useful print and online program.

INSIDE THE JSM APP
Take a closer look at the JSM App on Page 5.

DOCENT PROGRAM

Questions? New to JSM? Find a JSM docent to help you learn the ropes. JSM docents are experienced JSM attendees wearing an **orange button** (pictured) who can help you make the most of your experience.

Emergency Telephone Messages

In case of emergency, messages may be left during registration hours by calling **(410) 649-7439**. We will attempt to contact the registrant using the contact information provided in their registration.

Assistance for Those with Disabilities

Please contact a staff member at the Help Desk in the registration area if you have a disability that may impede your participation.

Child Care

Kiddie Corp is the official child care provider for JSM 2017. Arrangements should have been made in advance. Please contact Kiddie Corp at (858) 455-1718 or info@kiddiecorp.com for any questions or possible availability.

Policies

Electronic Devices

All cell phones, pagers, and other electronic devices should be silenced before attending any session or meeting.

Smoking

Smoking is not permitted at any JSM function, unless the event is held outside.

Recycling

Please use the paper, plastic, and aluminum trash containers located throughout the convention center. Also, participating in the towel and linen programs at area hotels makes a significant difference in the amount of energy and water used. Finally, place JSM badges and badge holders in one of the designated bins when leaving.

JSM Proceedings

Eligibility guidelines and author instructions for JSM 2017 presenters are available at ww2.amstat.org/meetings/jsm/2017/submissions.cfm#proceedings. The submission site will open August 29 and close October 1.

Meetings Conduct Policy*

As a professional society, the American Statistical Association (ASA) is committed to providing an atmosphere that encourages the free expression and exchange of ideas. Consistent with this commitment, it is the policy of the ASA that all participants in ASA activities will enjoy a welcoming environment free from unlawful discrimination, harassment, and retaliation. All participants in ASA activities also agree to comply with all rules and conditions of the activities, which are subject to change without notice.

*Please read the complete Conduct Policy at www.amstat.org/meetings/jsm/2017/conductpolicy.cfm.

Sunday from 8:30 p.m.–10:30 p.m. Some exhibitors will have refreshments. Look for more information inside the EXPO.

Join us for featured events throughout the week that give you a little taste of the city. Check out the schedule and stop by Spotlight to see more!

Sunday, July 30

1:00 p.m.

Spotlight Baltimore Kick-Off

Swing by and kick off JSM with a taste of a few Charm City delights. Enjoy sample sizes of crab cakes, pit beef, and more while they last!

3:30 p.m.

Baltimore's Berger Cookies

Made from vanilla shortbread covered in a fudge ganache, Berger cookies were originally brought from Germany to Baltimore by George and Henry Berger in 1835. Enjoy samples (while they last) and mingle with other attendees.

IMPACT BALTIMORE

Interested in giving back to the community while in Baltimore?

There are two ways to do so:

Drop off donations (school supplies such as pencils, rulers, crayons, and paper) in the donation boxes at the ASA Booth in the EXPO. Supplies will be passed out to schools in the Baltimore area.

Connect with other JSM attendees while making blankets (no sewing involved) to be donated to Project Linus. Just drop by Spotlight Monday through Wednesday between 11:30 a.m. and 1:00 p.m. to participate.

Monday, July 31

9:00 a.m.

Baltimore Insider Tips

Think you know Charm City? Whether you have been to Baltimore many times and want to discover something new or you need a rundown for your first time in the city, Visit Baltimore will be around to guide you.

ADDPLAN neo

Designing and executing an effective adaptive design not only requires your statistical expertise, but also demands efficient and reliable statistical software.

Introducing ADDPLAN neo, the latest version of ICON's market-leading ADDPLAN software, a fully validated, stand-alone, fixed and adaptive design simulation and analysis tool. This software combines ICON's statistical knowledge with a user-friendly interface to deliver accurate statistical analysis of adaptive trial data. It allows you to perform adaptive exploratory and confirmatory trial designs with early stopping, adaptive allocation rules, sample size re-estimation, and more.

ADDPLAN neo saves time and provides you with a greater opportunity to participate in strategic discussions regarding trial design.

CAREER SERVICE

Would you like to explore career opportunities with top statistical employers? The 2017 Career Service, located in Hall C of the Baltimore Convention Center, will give you the opportunity to research job postings and contact employers. Access is for registered applicants and employers only, and interviews are by appointment.

To Register

Visit the main JSM registration area and ask to add the Career Service to your registration.

Building on the American Statistical Association's statement on p -values, this symposium will focus attention on specific approaches for improving practice across three broad sets of activities:

- Conducting research in the 21st century
- Using research in the 21st century
- Sponsoring, disseminating, reproducing, and replicating research in the 21st century

Don't miss this opportunity to hear from experts in the field and be part of the conversation.

The Seven Pillars of Statistical Wisdom

Stephen M. Stigler

\$22.95

“Wonderful . . . Each of the seven pillars that Stigler, in his wisdom, has hewn from the past two centuries of statistical thought provides surprising insights.”

—Howard Wainer, *Science*

“Statistics has a core set of ideas that touch every aspect of our lives. Stigler has tapped into these and brought them to life.”

—Persi Diaconis, Stanford University

NOTES

Announcing STATA® release 15

The screenshot displays the Stata 15 interface with several key components:

- fmm - Finite mixture models using the fmm prefix:** A dialog box for fitting finite mixture models, showing options for syntax (Standard or Hybrid), command (ibreg), dependent variables (drvisits), independent variables (private, medicaid, age, educ), and parameterization of dispersion.
- Bayesian multilevel regression:** A window showing the results of a Bayesian multilevel regression using Metropolis-Hastings and Gibbs sampling. It includes MCMC iterations (12,500), burn-in (2,500), and MCMC sample size (10,000). The command used is `bayes: mixed math5 math3 || school;`
- Predicted Doctor Visits For Two Groups:** A histogram showing the density distribution of the number of visits for two groups. The x-axis is 'Number of visits' (0 to 25) and the y-axis is 'Density' (0 to 0.3).
- Posterior distributions of school effects:** A grid of 9 plots showing the posterior distributions for school effects for schools 1 through 9. Each plot shows a bell-shaped curve centered around zero, with a vertical red line indicating the mean.

New in Stata 15

- Bayesian multilevel models
- **bayes:** prefix for easily fitting Bayesian regression models
- Finite mixture models
- Latent class analysis
- Spatial autoregressive models
- Combine endogenous covariates, treatment effects, and sample selection
- Markdown—create HTML documents with Stata output, graphs ...
- Power analysis for cluster randomized trials
- Nonlinear mixed-effects models
- Interval-censored survival models
- Nonparametric kernel regression
- Mixed logit models
- PDF and Word documents with Stata results and graphs
- Import data from Federal Reserve Economic Data (FRED)
- ICD-10-CM/PCS
- Heteroskedastic regression
- Zero-inflated ordered probit models
- Poisson regression with sample selection
- Multilevel tobit and interval regression
- Panel-data cointegration tests
- Stata in Swedish
- Transparency on graphs
- Much more!

Better Health, Brighter Future

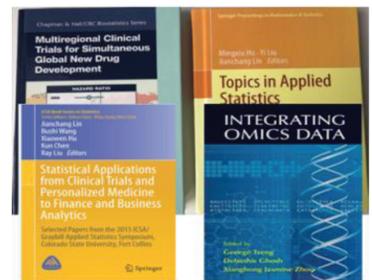

Takeda Pharmaceuticals is committed to INNOVATION in drug development

Innovative Designs

Advanced Analytics

Research & Publication

At Takeda, we see innovation as an essential ingredient in drug development. Our Global Statistics and Statistical Programming Department is active in the scientific community, and we develop and implement cutting-edge methodologies for drug discovery, clinical trial design and analysis, and post-marketing research. We are proud to sponsor the exchange of scientific ideas and methods here at JSM.
