

THE DATA MINE:

EXPERIENTIAL INDUSTRY PRACTICUMS IN DATA SCIENCE

Margaret Betz, Managing Director of Corporate Partnerships

Overview of The Data Mine

- Living, learning community (many students live in Hillenbrand Hall)
- All backgrounds and majors welcome: **Data Science for All!**
- Supportive, active learning environment
- Learn data science skills in HPC, Python, R, SQL; no lectures; all project based
- Data sets at modern complexity and size, from all disciplines
- 47 Corporate Partners, offering 60 projects, during 2021-22 academic year
- 675 undergrad and 97 grad students (fall 2021); aiming for 1300 total for fall 2022
- **124 unique majors represented by students**

Burton D. Morgan Center for Entrepreneurship (MRGN)

Hillenbrand Hall

Weekly Seminar (1 credit)

Above: Students meet in the Hillenbrand Dining Court Atrium for seminar on Mondays

the-examples-book.com

Summary of student resources

- **Weekly seminar (1 credit)** – 4 (identical) weekly synchronous interactive seminars on Mondays
- **Weekly projects** – 1 weekly project where students gain experiences working with *real* datasets on HPC cluster using a variety of common tools like R, Python, bash, awk, SQL, web scraping, regular expressions, XML.
- **The Examples Book** – a resources for supplementary material for students' weekly projects (<https://the-examples-book.com/>)
- **Office hours** – 80 TA office hours each week; Mon-Fri 8 AM – 9 PM in the residence hall
- **Piazza.com** – an asynchronous platform for student interaction enable communication between instructors and students; **7,864** student interactions in AY 2021-22; average response time of **9 minutes**

Corporate Partners

- Students work 8-10 hours per week for 3 credits per semester
- Data from industry partners and meaningful projects
- Mentoring by experts in industry and academia
- Full academic year long projects (August – May)
- Team leadership (TA) positions for 2nd, 3rd, 4th year
- Paths to internships and permanent employment
- Sponsored Research Contracts with 3 partners and expanding

	2018-19	2019-20	2020-21	2021-22	2022-23 (predicted)
Number of Partners	1	12	23	47	65
Number of Projects	1	16	31	60	85
UG Students in CRP program	10	141	310	407	700
Grad Students in CRP program	0	0	92	100	150

2021 - 2022 Corporate Partners

 American First Finance	 ATOM	 Bayer Crop Sciences	 Beck's Hybrids	 Microsoft Minecraft	 Purdue MFRI	 MISO	 Mursix
 Caterpillar	 CDC PROTECT	 Clifton Larsen Allen	 Corteva	 Nuvve	 Pebblst	 PlaneEnglish	 Purdue Athletics
 Cummins	 Delta Faucet	 DORIS	 Elanco	 PCRD	 Purdue RecWell	 Raytheon Technologies	 REACH Public Health
 Farfetch	 Ford	 Gro Master	 Halderman	 Renzo Box	 Republic Airways	 Sandia National Laboratories	 Telemetry Sports
 Helmer Scientific	 Indiana FSSA	 IU Health	 Jobvite	 TMap - Make My Move	 UPS	 USAA	 USDA Forest Service
 John Deere & Company	 Lockheed Martin	 MakuSafe	 Merck	 Viasat	 Wabash	 Webee

THE DATA MINE

The first large-scale learning community for undergraduate and graduate students from all majors, focused on *Data Science for All*. Hillenbrand Hall, where many Data Mine students live, is filled with new learning communities of students preparing for the data-driven workforce of the 21st century.

The Data Mine

Corporate Partners Symposium
(Wednesday, April 20, 2022)

Indiana Data Mine (funded by Lilly Endowment)

- New statewide network of regional hubs
- Students, faculty, industry, community leaders
- Collaborate to solve regional challenges
- Help manufacturing companies adopt cutting-edge technologies in automation and data exchange
- Opportunities to learn data science skills through immersive engagement
- Indiana companies; lead to careers in Indiana.
- Expand opportunities for data science training for first-generation and Black UGs

National Data Mine Network (funded by NSF)

- New national data science experiential learning and research program
- Awarded to the American Statistical Association (Ward is PI)
- 300 undergraduate students at Minority Serving Institutions
- (including HBCUs, Hispanic Serving Institutions, Tribal Colleges and Universities)
- Research stipends (\$5000 each) for 9-month projects
- Best practices for faculty who want to start university-industry partnerships
- Use high-performance computing to solve data-driven challenges
- Every sector of industry, including:
 - biomedical engineering, genomics, healthcare engineering, imaging, manufacturing, supply chain management, transportation, etc.
- <https://beta.nsf.gov/science-matters/developing-21st-century-data-science-workforce>
