WELCOME TO GENEVA

We warmly welcome you to Geneva for the Fifth International Conference on Establishment Surveys (ICES-V).

Continuing in the traditions of ICES-I to ICES-IV, ICES-V intends to explore new areas of business statistics as well as reflect state-of-the-art practices at the time of holding the conference.

Situated for the first time in Europe, in the beautiful surroundings of the canton and city of Geneva, ICES V is expected to be attractive to professionals and researchers in the area of statistics on businesses, farms and institutions throughout the world.

We hope that you will enjoy the comfort of the venue, the “Centre international de Conférences Genève” and fully benefit from the rich program that has been prepared for you.

*On behalf of the
Organizing Committee:*

Boris Lorenc and Jean-Pierre Renfer
Co-chairs

*On behalf of the
Program Committee:*

Polly Phipps
Chair

ORGANIZING COMMITTEE

Boris Lorenc (Co-Chair), *Statistics Sweden*
 Jean-Pierre Renfer (Co-Chair), *Swiss Federal Statistical Office*
 Carsten Boldsen, *United Nations Economic Commission for Europe*
 Markus Huber, *Swiss Federal Statistical Office*
 Wim Kloek, *Eurostat*
 Diego Kuonen, *Swiss Statistical Society*
 Mariarosa Lunati, *Organisation for Economic Co-operation and Development*
 Steve MacFeely, *United Nations Conference on Trade and Development*
 Darcy Miller, *National Agricultural Statistics Service (USA)*
 Polly Phipps, *Bureau of Labor Statistics (USA)*
 Steve Porzio, *American Statistical Association*
 Benjamin Rothen, *Swiss Federal Statistical Office*

PROGRAM COMMITTEE

Polly Phipps (Chair), *Bureau of Labor Statistics (USA)*
 Daniel Assoulin, *Swiss Federal Statistical Office*
 Pierre Lavallée, *Statistics Canada*
 Daniel Lewis, *Office for National Statistics (UK)*
 Darcy Miller, *National Agricultural Statistics Service (USA)*
 Richard Penny, *Statistics New Zealand*
 Michael Sinclair, *Mathematica Policy Research (USA)*
 Ger Snijkers, *Statistics Netherlands*
 Katherine Jenny Thompson, *US Census Bureau*
 Vanessa Torres van Grinsven, *Wageningen University and Research Center*

CONTINUATION COMMITTEE

Paul Smith (Chair), *University of Southampton*
 Brian Harris-Kojetin, *Committee on National Statistics*
 Irena Ograjensek, *University of Ljubljana*
 Polly Phipps, *US Bureau of Labor Statistics*
 Steve Porzio, *American Statistical Association*
 Frank Potter, *Mathematica Policy Research*
 Jean-Pierre Renfer, *Swiss Federal Statistical Office*
 Wesley Yung, *Statistics Canada*

LOCAL ARRANGEMENTS TEAM

Markus Huber, *Swiss Federal Statistical Office, (Co-Chair)*
 Steve MacFeely, *United Nations Conference on Trade and Development (Co-Chair)*
 Marie Dupraz, *Swiss Federal Statistical Office*
 Caroline Morona, *Swiss Federal Statistical Office*
 Max Ratzenberger, *Statistical Office of Geneva (OCSTAT)*
 Sandrine Rochat, *Swiss Federal Statistical Office*
 Daniel von Burg, *Swiss Federal Statistical Office*

PRACTICAL INFORMATION

REGISTRATION & ACCOMMODATION DESK

The registration and accommodation desk is open during the following hours:

Monday 20th 8:00–17:30

Tuesday 21st 8:00–17:30

Wednesday 22nd 8:00–18:30

Thursday 23rd 8:00–17:30

Registered participants are provided access to all: the sessions, conference documents (including name badge, conference program; short course material for short courses participants), welcome drink, coffee and tea refreshments, lunches, conference dinner, access to the exhibition area. Registered participants are not provided: accommodation, travel expenses, personal insurance.

NAME BADGE

Conference badges must be worn at all times during conference activities. The badge is required for admission to sessions and social activities that are included in the registration.

LUNCH

Lunches are included in the registration fee. The restaurant is located on the 1st floor.

WIFI

Wireless internet will be available in the conference center.
Username: ICESV – Password: 2016

CONFERENCE VENUE

All conference rooms are located at the Centre International de Conférences Genève (CICG).

Centre International de Conférences Genève CICG

Rue de Varembe 17

1211 Geneva 20

Phone: +41 (0)22 791 91 11

The access is facilitated by excellent public transport services. The CICG is situated only 4 km away from the international airport and 1 km from the Cornavin main railway station, downtown.

HOW TO REACH THE CICG

- From Cornavin main railway station:
Tram no. 15 (Palettes): stop "Nations"
Bus no. 5 (Aéroport): stop "Vermont"
Bus no. 8 (OMS): stop "UIT"
- From the international airport:
Bus no. 5 (Thônex-Vallard): stop "Vermont"
Bus no. 28 (Jardin Botanique): stop "Nations"

WHERE TO PARK YOUR CAR

Parking des Nations, Les Genêts, 1202 Genève
(5 min. walking distance to CICG)

PLENARY TALK

TUESDAY, 21 JUNE 2016, FROM 09:00 TO 10:10

Economic Statistics: How to Become Lean and Mean**Peter van de Ven**

Head of National Accounts, Statistics Directorate
Organisation for Economic Co-operation and
Development

Peter van de Ven is Head of National Accounts in the Statistical Directorate of the Organization for Economic Co-operation and Development. In 1984, he started his career at Statistics Netherlands, in the area of National Accounts. After various positions in the field of national accounts and government finance statistics, he was Director of National Accounts, from 2003 up to 2011. In 2011, he joined the OECD, in his current position. He is responsible for (non-financial and financial) national accounts, prices and Purchasing Power Parities, environmental accounting and Composite Leading Indicators.

Peter van de Ven has always been heavily involved in international discussions on the enhancement of statistics more generally, and national accounts in particular. Amongst others, he was chair of the EU Committee on Monetary, Financial and Balance of Payments Statistics (CMFB), in 2009–2010, chair of the International Association for Research on Income and Wealth (IARIW), from August 2010 to August 2012, member of the Advisory Expert Group on National Accounts from its start, and member of the UN Committee of Experts on Environmental-Economic Accounting. From September 2011 up to February 2014, he was also chair of the Inter Secretariat Working Group on National Accounts (ISWGNA). Presently, he is chair of the Inter Secretariat Working Group on Price Statistics (IWGPS).

PLENARY TALK

THURSDAY, 23 JUNE 2016, FROM 15:50 TO 17:00

Onward and Upward with Multiple Data Sources for Business Statistics**Constance F. Citro**

Director, Committee on National Statistics
U.S. National Academies of Sciences,
Engineering, and Medicine

Constance F. Citro is director of the Committee on National Statistics, a standing unit at the U.S. National Academies of Sciences, Engineering, and Medicine. CNSTAT carries out studies for U.S. agencies to help improve the information on which policy decisions are based and coordinate the very decentralized U.S. statistical system. Dr. Citro was previously senior study director with CNSTAT from 1984–2004 and, prior to joining CNSTAT, vice president of Mathematica Policy Research, Inc., and Data Use and Access Laboratories, Inc. She is a fellow of the American Statistical Association and an elected member of the International Statistical Institute. She received the Roger Herriot Award for Innovation in Federal Statistics in 1997 and the Waksberg Award in Survey Methodology in 2014.

For CNSTAT, Dr. Citro has directed many evaluations of censuses and surveys and co-edited the 2nd–5th editions of *Principles and Practices* for a Federal Statistical Agency. During her tenure as director, CNSTAT has reviewed surveys of state and local government employment and finance, farm finances, commercial buildings energy consumption, and business R&D expenditures. CNSTAT is currently reviewing the Census Bureau's annual economic surveys and conducting a multi-year study of using multiple data sources to improve official statistics.

PROGRAM OVERVIEW

Monday, 20 June 2016

0800–1730	Registration
0800–0900	Short courses check in
0900–1030	Short courses in session
1030–1050	Short courses coffee break
1050–1220	Short courses in session
1220–1350	Short courses lunch break
1350–1520	Short courses in session
1520–1540	Short courses tea break
1540–1650	Short courses in session
1700–1900	Opening ceremony and welcome reception

Tuesday, 21 June 2016

0800–1730	Registration	
0900–1010	Keynote speaker Peter van de Ven	
1010–1040	Coffee break	
1040–1220	6 parallel sessions	Software demonstrations session 1
1220–1340	Lunch	
1340–1520	6 parallel sessions	Software demonstrations session 2
1520–1550	Tea break	
1550–1730	6 parallel sessions	
1800–2000	Geneva walking tour	

Wednesday, 22 June 2016

0800–1830	Registration	
0830–1010	6 parallel sessions	
1010–1040	Coffee break	
1040–1220	6 parallel sessions	Software demonstrations session 3
1220–1340	Lunch	
1340–1520	6 parallel sessions	Software demonstrations session 4
1520–1550	Tea break	
1550–1730	6 parallel sessions	
1730–1830	ICES General Assembly	

Thursday, 23 June 2016

0800–1730	Registration
0830–1010	6 parallel sessions
1010–1040	Coffee break
1040–1220	6 parallel sessions
1220–1340	Lunch
1340–1520	6 parallel sessions
1520–1550	Tea break
1550–1700	Keynote speaker Constance Citro
1700–1730	Closing ceremony
1830–2230	Cash bar and conference dinner

Monday, 20 June

08:00–17:30 *Registration*

09:00–10:30 **Short courses in session**

<i>Room 5</i>	<i>1-Designing and Conducting Business Survey Data Collection</i>	G. Snijkers , Statistics Netherlands G. Haraldsen , Statistics Norway D. Willimack , US Census Bureau
---------------	---	---

<i>Room 6</i>	<i>2-Establishment Survey Sample Design and Estimation</i>	K. Copeland , National Opinion Research Center at the University of Chicago
---------------	--	--

<i>Room 16</i>	<i>3-Optimal Sampling, with Application to Business Surveys</i>	P. Falorsi, P. Righi , Istat
----------------	---	-------------------------------------

<i>Room 18</i>	<i>4-Record Linkage</i>	T. Tuoto, M. Scanu , Istat
----------------	-------------------------	-----------------------------------

<i>Room 15</i>	<i>5-Small Area Estimation</i>	P. Ardilly , INSEE
----------------	--------------------------------	---------------------------

<i>Room 14</i>	<i>6-Robust estimation in the presence of influential units in business surveys</i>	J. Beaumont , Statistics Canada D. Haziza , Université de Montréal
----------------	---	---

10:30–10:50 *Coffee break*

10:50–12:20 **Short courses in session. Same as above**

12:20–13:50 *Lunch*

13:50–15:20 **Short courses in session. Same as above**

15:20–15:40 *Tea break*

15:40–16:50 **Short courses in session. Same as above**

17:00–19:00 **Opening Ceremony and Welcome Reception**

Tuesday, 21 June

08:00–17:30 Registration

09:00–10:10 **Keynote session:** Keynote 1

Room 2

Chair: Jean-Pierre Renfer, Swiss Federal Statistical Office

*Economic Statistics: How to
Become Lean and Mean*

P. van de Ven, OECD

Parallel Sessions

10:10–12:20 **Software presentation:** Software Demonstrations 1

Room 21

*Sharemind, Rmind and the secure
survey system*

B. Kubo, Cybernetica AS

R package vardpoor

M. Liberts, Central
Statistical Bureau of Latvia

*Enhancing Survey Data Quality
With Surveybe*

S. Broadbent, Economic
Development Initiatives
(EDI) Limited

*timeseriesdb: Manage and Archive
Time Series Data in Establishment
Statistics with R and PostgreSQL*

M. Bannert, Swiss KOF
Economic Institute

10:10–10:40 Coffee break

10:40–12:20 **Introductory overview lecture:** Questionnaire design and
response burden

Room 2

Chair: Gustav Haraldsen, Statistics Norway

*Questionnaire Design for Business
Surveys*

J. McCarthy, National
Agricultural Statistics Service

Response Burden in Business Surveys

M. Bavdaz, University of
Ljubljana

10:40–12:20 **Invited session:** Methods for Overcoming Challenges in
Sampling of Establishments

Room 4

Chair: Daniell Toth, US Bureau of Labor Statistics

Discussant: Dan Hedlin, Stockholm University

Organizer(s): Daniell Toth, US Bureau of Labor Statistics

<i>Balanced sampling in surveys</i>	D. Haziza , Université de Montréal G. Chauvet, É. Lesage
-------------------------------------	--

<i>The Swiss Coordination System for Business Surveys</i>	Y. Tillé , University of Neuchâtel L. Qualité , Swiss Federal Statistical Office
---	---

10:40–12:20 Room 5 **Invited session:** Global Value Chains and the measurement of the interconnectedness of economies

Chair: Martin Luppens, Statistics Netherlands
Discussant: Axel Behrens, Eurostat Luxembourg
Organizer(s): Martin Luppens, Statistics Netherlands

<i>Accounting for firm heterogeneity in Global Value Chains: from micro data to extended international economic accounts</i>	F. Fortanier , OECD N. Ahmad
--	--

<i>Asymmetries, Micro-Data Linking and Business Registers</i>	R. Jansen , United Nations Statistics Division
---	---

<i>Measuring international orientation of enterprises – results from an European micro-data linking project</i>	P. Nielsen , Statistics Denmark
---	--

10:40–12:20 Room 3 **Topic contributed session:** Innovations in nonresponse adjustment methods

Chair: Kennon Copeland, NORC at the University of Chicago
Organizer(s): Laura Bechtel, US Census Bureau

<i>Handling Nonresponse in Model-Based Cut-off Samples via Prediction-Based Imputation</i>	S. Adeshiyan , U.S. Energy Information Administration
--	--

<i>Imputations' Reaction to Data: Exploring the Boundaries and Utility of IVEware and Iterative Sequential Regression (ISR)</i>	D. Miller , National Agricultural Statistics Service J. Lisic, A. Dau
---	---

<i>Exact balanced random imputation</i>	G. Chauvet , ENSAI W. Do Paco
---	---

<i>Hot Deck Imputation: How Many Times Can or Should a Donor Be Used?</i>	L. Bechtel , US Census Bureau K. Thompson, Y. Gonzalez
---	--

<i>A discussion of weighting procedures for unit nonresponse</i>	E. Lesage , INSEE D. Haziza
--	---------------------------------------

10:40–12:20 Contributed session: Frame creation and maintenance
Room 6

Chair: Paul-André Salamin, University of Applied Sciences and Arts Western Switzerland

Creating and maintaining business registers **F. Sala**, Institute of Statistics Albania

The French business registers system : How to improve the quality of the statistics by combining different statistical units **O. Haag**, INSEE

Handling survey feedback in business statistics **F. Jonsson**, Statistics Sweden
E. Elvers, J. Brewitz

The longitudinal aspect of enterprises; continuity on the basis of employees **W. Kloek**, Eurostat
R. Konen

Creating a Statistical Business Register in Mexico **A. Blancas**, Instituto Nacional de Estadística y Geografía de México
S. Pérez

12:20–13:40 Lunch

Parallel Sessions

13:40–15:20 Introductory overview lecture: Use of administrative data in statistical outputs
Room 2

Chair: Daniel Lewis, UK Office for National Statistics

Editing and Imputation of Administrative Data **J. Hoogland**, Statistics Netherlands

Use of Administrative Data in Statistical Outputs: Survey Estimation **W. Yung**, Statistics Canada

13:40–15:20 Invited session: New directions using robust estimation in establishment surveys
Room 3

Chair: Katherine J. Thompson, US Census Bureau
Discussant: David Haziza, Université de Montréal
Organizer(s): Mary Mulry, US Census Bureau

Outlier robust small domain estimation via a bounded bootstrap **R. Chambers**, University of Wollongong
P. Mokhtarian

Improved scale estimation for Huber M-quantiles **J. Dawber**, University of Wollongong
N. Tzavidis, N. Salvati

Practical outlier detection in business surveys using robust estimation **V. Todorov**, United Nations Industrial Development Organization

Setting M-estimation parameters for detection and treatment of influential values **M. Mulry**, US Census Bureau
et al.

13:40–15:20 Room 4 **Invited session:** Sampling, recruitment and interviewing in the development and testing of business survey questionnaires

Chair: Glenn White, National Academy of Sciences – Committee on National Statistics

Discussant: Ger Snijkers, Statistics Netherlands

Organizer(s): Jacqui Jones, Office for National Statistics, Paul Smith, University of Southampton

Sampling and recruitment in cognitive interview studies for establishment surveys **P. Smith**, University of Southampton
R. James, M. Bavdaz

Design of data collection in cognitive interview studies for establishment surveys **D. Moore**, Washington State University
et al.

Analyses and reporting in cognitive interview studies for establishment surveys **M. Bavdaz**, University of Ljubljana
et al.

13:40–15:20 Room 5 **Topic contributed session:** Small, large, factoryless, international: Measuring business heterogeneity in the global economy

Chair: Nadim Ahmad, OECD

Organizer(s): Mariarosa Lunati, OECD

Addressing users' needs: Statistics on the internationalisation of small and medium-sized enterprises **M. Lunati**, OECD

Identifying Factoryless Goods Production in the U.S. Statistical System **W. Mockovak**, US Bureau of Labor Statistics
et al.

Data linking and globalisation: Eurostat's project EuroGroups Register (EGR) **A. Liotti**, Eurostat
Z. Volfinger, S. Maus

The Global Legal Entity Identifier System (GLEIS): the approach of INSEE **P. Schuhl**, INSEE

13:40–15:20 Contributed session: Sample design and methods
Room 6

Chair: Desislava Nedyalkova, Swiss Federal Statistical Office

The use of spatial sampling to conduct representative firm surveys

D. Giuliani, University of Trento
et al.

New sampling design for the Swiss Job Statistics

J. Nicoletti, Swiss Federal Statistical Office
D. Assoulin

Local Pivotal Methods for Large Surveys

N. Cruze, National Agricultural Statistics Service
J. Lisic

PPS sampling with panel rotation for estimating price indices on services

A. van Delden, Statistics Netherlands
S. Scholtus, J. Burger

13:40–15:50 Software presentation: Software Demonstrations 2
Room 21

RPMS (Recursive Partitioning for Modeling Survey Data), a package in R: Modeling Survey Data with Regression Trees

D. Toth, US Bureau of Labor Statistics

Employees Tracker Software

D. Sonino, Israel Central Bureau of Statistics

Pogues & Eno generator: Specify and view a web questionnaire generated from its formal description

T. Dubois, INSEE

The R sampling package

Y. Tillé, University of Neuchâtel
A. Matei

15:20–15:50 Tea break

Parallel Sessions

15:50–17:30 Introductory overview lecture: Adaptive design
Room 2

Chair: Stephen Kaputa, US Census Bureau

Responsive Design and Paradata: Paradata-Based Quality Indicators

J. Wagner, University of Maryland

Responsive Data Collection Design: Tailoring Fieldwork Effort

B. Schouten, Statistics Netherlands and Utrecht University
A. Luiten

15:50–17:30 Room 3	Invited session: Integration of data sources: processing and estimation	
	Chair: Beat Hulliger, University of Northwestern Switzerland Discussant: Ton de Waal, Statistics Netherlands & Tilburg University Organizer(s): Ton de Waal, Statistics Netherlands & Tilburg University	
	<i>Selective editing of multisource data based on latent class models</i>	M. Di Zio , Istat U. Guarnera, R. Varriale
	<i>How do I-SEE: Integrated Sampling, Editing and Estimation?</i>	L. Zhang , University of Southampton, Statistics Norway
	<i>Removing the Gap between Annual and Sub-Annual Statistics based on Different Data Sources</i>	J. Daalmans , Statistics Netherlands et al.
15:50–17:30 Room 5	Invited session: Modernizing Statistical Production in Establishment Surveys through Standardization	
	Chair: Steven Vale, United Nations Economic Commission for Europe Discussant: Daniel Gillman, US Bureau of Labor Statistics Organizer(s): Daniel Gillman, US Bureau of Labor Statistics	
	<i>Modernization at the US Census Bureau</i>	W. Hazard , US Census Bureau
	<i>How metadata systems support the modernization of statistical production: the Istat experience</i>	M. Signore , Istat et al.
	<i>Benefits of the handbook on business statistics; a first assessment</i>	Á. Andics , Hungarian Central Statistical Office et al.
15:50–17:30 Room 4	Topic contributed session: Identifying characteristics of establishment response to inform data collection	
	Chair: Polly Phipps, US Bureau of Labor Statistics Organizer(s): Polly Phipps, US Bureau of Labor Statistics	
	<i>Developing Response Metrics for the 2017 U.S. Economic Census</i>	R. Struble , US Census Bureau E. Fink, J. Lineback
	<i>An Analysis of Business Response Burden and Response Behaviour Using a Register of Data Provision</i>	B. Lorenc , Statistics Sweden
	<i>Identifying Characteristics of Establishment Nonresponse in a Longitudinal Survey</i>	M. Earp , US Bureau of Labor Statistics et al.

Adaptive Design in an Establishment Survey: Targeting, Applying and Measuring "Optimal" Data Collection Procedures in the Agricultural Resource Management Survey

T. Wilson, National Agricultural Statistics Service
J. McCarthy, A. Dau

15:50–17:30 **Contributed session:** Measuring respondent burden
Room 6

Chair: Lionel Qualité, Swiss Federal Statistical Office

Systematic measurement and monitoring of the response burden for business surveys and setting up the database for response burden indicators and standardised reporting on response burden

E. Belak, Statistical Office of the Republic of Slovenia
D. Oblak

Developments in measuring the burden placed on businesses responding to statistical surveys

A. Tucker, UK Office for National Statistics
et al.

The Relationship Between Response Burden and the Mode of Data Collection in Business Surveys: Experiences from the Finnish Road Freight Survey

J. Rouhunkoski, Statistics Finland
P. Godenhjelm

15:50–17:30 **Contributed session:** Using the new data environment
Room 13

Chair: Peter Struijs, Statistics Netherlands

BigData techniques supporting a short-term statistics survey

T. Klimanek, K. Potocki, Statistical Office in Poznan
J. Kowalewski

Opportunities and Challenges for using Big Administrative Data

D. Talan, Bureau of Labor Statistics

Primary Care Team Cohesion and Performance Outcomes for CVD Patients as Reflected in the Electronic Health Record

M. Mundt, University of Wisconsin-Madison
L. Zakletskaia

Incorporating Mobile Mapping Instruments in the June Agricultural Survey Data Collection Effort

D. Abreu, National Agricultural Statistics Service
et al.

Redesigning surveys and the data collection process using administrative data

S. Biffignandi, University of Bergamo
A. Bianchi

18:00–20:00 Geneva walking tour

Wednesday, 22 June

08:00–18:30 *Registration*

Parallel Sessions

08:30–10:10 **Introductory overview lecture:** Imputation methods
Room 4

Chair: Darcy Miller, National Agricultural Statistics Service

Single Imputation

T. de Waal, Statistics Netherlands

Multiple Imputation

R. Andridge, Ohio State University

08:30–10:10 **Invited session:** Adaptive Business Survey Design
Room 2

Chair: Barry Schouten, Statistics Netherlands and Utrecht University

Discussant: Daniell Toth, US Bureau of Labor Statistics

Organizer(s): Barry Schouten, Statistics Netherlands and Utrecht University

Adaptive Design Strategies for Nonresponse Follow-Up in Economic Surveys

S. Kaputa, US Census Bureau
K. Thompson, L. Bechtel

Use of nonresponse indicators in the Swedish Turnover in the Service Sector (TSS)

O. Ståhl, Statistics Sweden
P. Lundquist, A. Lindblom

*Aspects of Adaptive Total Design for O*NET*

P. Biemer, RTI International
M. Berzofsky, J. Unangst

08:30–10:10 **Invited session:** International Trade & Globalisation
Room 13

Chair: Steve MacFeely, UNCTAD

Discussant: Ronald Jansen, United Nations Statistics Division

Organizer(s): Steve MacFeely, Hubert Escaith, Mondher Mimouni, Joint UNCTAD-WTO-ITC proposal

The Challenges of Understanding International Trade in the Developing World

A. Nicita, University College Cork
S. MacFeely

Bilateral trade asymmetries, micro-data linking and the importance of national and global business registers

R. Jansen, UNSD

Analysing non-tariff measures: a survey-based approach

A. Benzakri, ITC et al.

08:30–10:10 **Topic contributed session:** New approaches to research and development supporting establishment survey redesign
Room 5

Chair: Kathleen Ott, National Agricultural Statistics Service
Organizer(s): Jennifer Beck, Alfred D Tuttle, US Census Bureau

Using a collaborative approach and multi-method research to re-engineer a census of businesses

J. Beck, US Census Bureau et al.

Using the respondents' perspective in redesigning the survey on international trade in goods

M. Geurden-Slis, Statistics Netherlands
D. Giesen, L. Houben

Questionnaire Communication with Businesses; A Case Study

G. Haraldsen, Statistics Norway

Generating business survey questionnaires using active metadata

T. Dubois, INSEE

08:30–10:10 **Contributed session:** Estimation using administrative data
Room 3

Chair: Jean-Marc Nicoletti, Swiss Federal Statistical Office

Adjusting for Calendar Effects in Payroll Hours and Earnings Series

N. Hudson, US Bureau of Labor Statistics
J. Mercurio

Occupational Injuries and Employer Dynamics

N. Nestoriak, US Bureau of Labor Statistics

Flash estimates for short term statistics

A. Meraner, Statistics Austria
M. Fröhlich, A. Kowarik

Automatic balancing of the national accounts

A. Lennmalm, Statistics Sweden et al.

08:30–10:10 **Contributed session:** Mixed mode data collection
Room 6

Chair: Martin Karlberg, Eurostat

Web Collection in the Quarterly Census of Employment and Wages Program

S. Stang, US Bureau of Labor Statistics
E. Thomas

Is moving establishment surveys from mail to web a good or bad decision in terms of performance and data quality

G. Haas, Institute for Employment Research et al.

The efficiencies of fax in surveys of clinical establishments: observations from a multi-mode survey of Ambulatory Surgery Centers

N. Teixeira, Westat et al.

Use of mixed modes in establishment surveys: associated establishment characteristics and differences in survey responses in the 2014 National Study of Long-Term Care Providers

M. Sengupta, National Center for Health Statistics
L. Harris-Kojetin

From Experimental Testing to Reality: Outcomes from Mixed-mode Implementation of the 2014 National Survey of Business Competitiveness

D. Moore, Washington State University
T. Wojan

Parallel Sessions

10:10–12:20 **Software presentation:** Software Demonstrations 3
Room 21

The %everest SAS macro: a tool for variance estimation in business surveys

M. Chevalier, INSEE

OptimStrategy: On the decision about the sampling strategy

E. Bueno, Stockholm University

ArcGIS: Modernization of National Statistical Office Business Processes using GIS

L. A. Peters, B. Piersol, ESRI

10:10–10:40 Coffee break

10:40–12:20 **Introductory overview lecture:** Economic classification – industry/activity vs. product
Room 3

Chair: Wesley Yung, Statistics Canada

Part 1 – Overview of Industry/Activity and Product Classification Systems in North America and Europe

K. Blomqvist, Statistics Sweden
A. Baer

Part 2 – Practical Applications of Economic Classification Systems for Establishment Surveys

A. Baer, US Census Bureau
K. Blomqvist

10:40–12:20 Room 4	Invited session: Statistical inference in the presence of missing survey data: a CANSSI session
	Chair: David Haziza, Université de Montréal Organizer(s): David Haziza, Université de Montréal
	<i>Statistical matching using fractional imputation</i> J. Kim , Iowa State University
	<i>Analysis of Ordinal Survey Responses with Missing Values</i> C. Wu , University of Waterloo X. She
	<i>Robust inference in two-phase sampling designs with application to unit nonresponse</i> J. Beaumont , Statistics Canada D. Haziza, C. Favre Martinoz
10:40–12:20 Room 2	Invited session: The Future of Statistical Units
	Chair: Norbert Rainer, Statistics Austria Discussant: Steven Vale, United Nations Economic Commission For Europe Organizer(s): Peter Struijs, Statistics Netherlands
	<i>The desired future system of statistical units from the perspective of Business Statistics</i> P. Struijs , Statistics Netherlands
	<i>The desired future system of statistical units from the perspective of National Accounts</i> S. Mahajan , UK Office for National Statistics
	<i>The desired future system of statistical units from the perspective of globalisation</i> P. Nielsen , Statistics Denmark
10:40–12:20 Room 5	Topic contributed session: Quality, analytic potential and accessibility of linked administrative, survey and commercial data
	Chair: David Talan, US Bureau of Labor Statistics Organizer(s): Manfred Antoni, Institute for Employment Research, Nuremberg
	<i>Longitudinal administrative labour market data – Origin, preparation and access</i> A. Schmucker , Institute for Employment Research M. Antoni
	<i>Using administrative data for innovative survey designs: The case of linked employer-employee data on further training in Germany</i> M. Huber , Institute for Employment Research A. Schmucker
	<i>Management Practices and Firm Performance – An Establishment Survey amongst German Managers</i> M. Laible , Institute for Employment Research S. Broszeit

Combining commercial firm data with administrative employer-employee data – methodological challenges of linkage, preparation and anonymization

M. Antoni, Institute for Employment Research
M. Laible

10:40–12:20 Room 6 Contributed session: Administrative data quality issues

Chair: Manisha Sengupta, CDC/National Center for Health Statistics

Using administrative data in establishment surveys in Statistics Finland calculating monthly index of industrial production (IPI)

K. Rautio, Statistics Finland

Swiss Structural Business Statistics: Data Harmonization for the Construction of Full-time Equivalents

D. Nedyalkova, Swiss Federal Statistical Office
D. Assoulin

Can administrative tax return data be used to substitute survey data? An assessment of editing and imputing tax data to ensure data quality

C. Gaughan, UK Office for National Statistics

How hard is it to count? Reconciling monthly survey and administrative data: experiences from the Current Employment Statistics program

S. Mance, US Bureau of Labor Statistics
C. Manning

Surveys on spatial populations of firms in presence of locational errors

M. Dickson, University of Trento
et al.

12:20–13:40 Lunch

Parallel Sessions

13:40–15:20 Room 2 Invited session: Establishing and maintaining a relationship with businesses: respondent advocate/ombudsman experiences and response burden management

Chair: Ger Snijkers, Statistics Netherlands

Discussant: Norbert Rainer, Statistics Austria

Organizer(s): Ger Snijkers, Deidre Giesen, Statistics Netherlands

Respondent advocacy at Statistics New Zealand

R. Penny, Statistics New Zealand, *Presenter is not an author
P. Brown

<i>Respondent Outreach Practices at the US Census Bureau</i>	C. Brady , US Census Bureau
<i>Response burden management at Statistics Netherlands</i>	A. Vaasen Otten , Statistics Netherlands D. Giesen
<i>Business Respondent Advocacy at Statistics Canada: Where we've been and where we're going?</i>	D. Ravindra , Statistics Canada, *Presenter is not an author M. Vella

13:40–15:20 Invited session: New Approaches for Agricultural Surveys
Room 3

Chair: Michael Steiner, National Agricultural Statistics Service
Discussant: Calogero Carletto, World Bank, Rome
Organizer(s): Michael Steiner, National Agricultural Statistics Service

<i>Agricultural Surveys in the Republic of Georgia</i>	M. Guntsadze , National Statistics Office of Georgia M. Steiner
<i>Use of administrative data with the survey of wineries</i>	E. Laczka , Hungarian Central Statistical Office
<i>Challenges in Developing and Implementing a New Survey Program: The Current Agricultural Industrial Reports</i>	B. Rater , National Agricultural Statistics Service

13:40–15:20 Topic contributed session: New developments in sampling methods for business surveys
Room 4

Chair: Gary Brown, UK Office for National Statistics
Discussant: Yves Tillé, University of Neuchatel
Organizer(s): Paul Smith, University of Southampton

<i>Cross-classified sampling for a survey of pharmacies</i>	C. Skinner , London School of Economics and Political Science
<i>Optimizing sampling designs in establishment surveys</i>	R. Münnich , Trier University U. Friedrich, M. Rupp
<i>An assessment of balanced sampling for use in business surveys</i>	P. Smith , University of Southampton L. Zhang
<i>Small area estimation with a lognormal mixed model under informative sampling</i>	T. Zimmermann , Federal Statistical Office of Germany R. Münnich

13:40–15:20 Contributed session: Estimation for nondesign outputs
Room 5

Chair: Joakim Malmdin, Statistics Sweden

Small area estimation for business statistics: a study on Italian small and medium enterprises

F. Rocci, Istat
F. Solari, O. Luzi

Sensitivity analysis of the Swedish GDP

D. Lennartsson, Statistics Sweden
A. Lennmalm

On inference from convenience samples of establishments

B. Hulliger, University of Northwestern Switzerland

13:40–15:20 Contributed session: New approaches to survey design and response
Room 6

Chair: Morgan Earp, US Bureau of Labor Statistics

Unit Nonresponse and Data Quality in an Establishment Mail Survey

D. Williams, Westat et al.

Does the Placement of the Linkage Consent Question Matter in Establishment Surveys?

J. Sakshaug, University of Manchester
B. Vicari

The factorial survey approach in establishment surveys – results from the German BIBB-qualification panel study

C. Gerhards, BIBB - German Federal Institute for Vocational Education and Training

Design of the Medical Expenditure Panel Survey Medical Organization Survey Component

S. Cohen, RTI International

Annual reports and models in the production of business statistics

E. Tamm, Statistics Estonia
M. Põldsaar, R. Nestor

13:40–15:50 Software presentation: Software Demonstrations 4
Room 21

IST: Metadata driven codeless development environment

M. Nikic, Statistical Office of Republic of Serbia

MultiWay: a flexible tool for sample allocation for establishment surveys

P. Righi, P. Falorsi, Istat

SMART: A new web system for Small Area Estimation

P. Falorsi, A. Fasulo, Istat

SOP – General software for statistical data processing at Statistical Office of the Republic of Slovenia

J. Pikelj, Statistical Office of the Republic of Slovenia

15:20–15:50 Tea break

Parallel Sessions

15:50–17:30 **Invited session:** Integrating administrative data into official statistics
Room 2

Chair: Nancy Kirkendall, National Academy of Sciences, Committee on National Statistics

Discussant: Anders Holmberg, Statistics Norway

Organizer(s): Andrew Black and Chen Chen, Statistics New Zealand

Creating New and Improved Business Statistics by Maximising the Use of Administrative Data **R. Penny**, Statistics New Zealand, *Presenter is not the author et al.

Using Administrative Data in Monthly Economic Surveys; the Statistics Canada Experience **W. Yung**, Statistics Canada
M. Renaud, R. Laroche

Investigating methods for using admin data in ONS business statistics **D. Lewis**, UK Office for National Statistics

Usability of administrative data – initiatives and common approach **F. Verschaeren**, Statistics Belgium

15:50–17:30 **Topic contributed session:** Business process improvement using lean (Six Sigma) method and tools
Room 3

Chair: Siobhan Carey, Department for Business, Innovation and Skills, UK

Organizer(s): Remco Paulussen, Statistics Netherlands

Using Lean Six Sigma in Business Surveys: a practical example **S. Portillo**, Central Statistics Office Ireland

Strategic planning for continuous improvement – use the Hoshin Kanri X-matrix **R. Paulussen**, Statistics Netherlands
M. Kevers, J. Lammers

The application of "Value Engineering" tools to risk assess the outputs of an NSI. **G. Sharp**, UK Office for National Statistics

Achieve a culture of continuous improvement in a statistical environment **M. Kevers**, Statistics Netherlands
J. Lammers, R. Paulussen

15:50–17:30 Room 4	Topic contributed session: Understanding innovation and entrepreneurship in the U.S. through data integration	
	Chair: Laura Bechtel, US Census Bureau Discussant: Lars Vilhuber, Cornell University Organizer(s): Javier Miranda, US Census Bureau	
	<i>The Business Dynamics Statistics of Innovative Firms: Linking U.S. Patents with Administrative Data on Workers and Firms</i>	J. Miranda , US Census Bureau et al.
	<i>The LBD Initiative: Understanding Innovation and Entrepreneurship in the U.S.</i>	J. Miranda , US Census Bureau K. McCue
	<i>The Business Dynamics of Exporting Firms: Integrating Trade Transactions Data with Business Administrative Data</i>	F. Kamal , US Census Bureau J. Miranda, G. Barresse
	<i>Business Dynamics and Workforce Characteristics: Integrating Demographic Data with Business Administrative Data</i>	M. Stinson , US Census Bureau K. McCue, C. Trillo
15:50–17:30 Room 5	Contributed session: Questionnaire design	
	Chair: Eva Belak, Statistical Office of the Republic of Slovenia	
	<i>Improving questionnaires in Business Surveys: Cognitive Pretesting in the IAB-Establishment Panel</i>	S. Kohaut , Institute for Employment Research I. Möller, E. Peter
	<i>Second European Survey of Enterprises on New and Emerging Risks (ESENER-2) – Questionnaire development process</i>	X. Irastorza , European Agency for Safety and Health at Work
	<i>Harmonisation and the Electronic Data Collection Program</i>	I. Sidney , UK Office for National Statistics C. Wroth-Smith
	<i>Using Graphics in Data Collection to Aid Respondent Comprehension</i>	R. Morrison , National Science Foundation H. St. Onge
	<i>Insights and Issues from the 4th International Workshop on Business Data Collection Methodology</i>	G. Snijkers , Statistics Netherlands D. Willimack, G. Haraldsen

15:50–17:30 Room 6	Contributed session: Estimation using linked and combined data	
	Chair: Li-Chun Zhang, University of Southampton, Statistics Norway	
	<i>Complementary facility and population surveys for identifying barriers to health care in developing countries</i>	A. Levine , University of Washington et al.
	<i>Developments in Model-based Estimation of County Level Agricultural Estimates</i>	N. Cruze , National Agricultural Statistics Service et al.
	<i>Enterprises in International Trade. Gaining Information by combining different data sources.</i>	I. Duarte Fernandes , Destatis
	<i>Derivation of complex economic indicators through statistical matching</i>	G. Seri, D. Ichim , Istat et al.

15:50–17:30 Room 13	Contributed session: Survey collection and processing systems	
	Chair: Andrew Baer, US Census Bureau	
	<i>Reviewing the orchard survey in Germany 2017</i>	W. Hauschild , Federal Statistical Office of Germany
	<i>Steps towards process standardisation in mixed mode data collection from enterprises in the Statistical Office of the Republic of Slovenia</i>	M. Noc Razinger , Statistical Office of the Republic of Slovenia
	<i>Use of the Information and communications technology (ICT) in National Economic Surveys of Mexico: advantages and challenges</i>	J. Rios , Instituto Nacional de Estadística y Geografía
	<i>Building a common production environment – The Swedish experience</i>	J. Erikson, M. Odencrants , Statistics Sweden
	<i>Developing a Taxonomy and Lexicon of Terms and Concepts for the US Bureau of Labor Statistics</i>	D. Gillman , US Bureau of Labor Statistics et al.

17:30–18:30 ICES General Assembly

Thursday, 23 June

08:00–17:30 *Registration*

Parallel Sessions

08:30–10:10 **Introductory overview lecture:** Disclosure avoidance methods
Room 4

Chair: Gary Brown, UK Office for National Statistics

Statistical Disclosure Methods for Microdata

A. Oganian, Georgia Southern University and National Center For Health Statistics

Statistical Disclosure Methods for Tabular Data

J. Salazar Gonzalez, Universidad De La Laguna

08:30–10:10 **Invited session:** Developing and mainstreaming business statistics – Best practices and challenges in low and middle income countries
Room 3

Chair: Gabriel Gamez, United Nations Statistics Division

Discussant: Ronald Jansen, United Nations Statistics Division

Organizer(s): Gabriel Gamez, United Nations Statistics Division

Alignment Of The Quarterly Financial Statistics To Annual Financial Statistics Data

S. Pillay, Statistics South Africa
J. de Beer

Economic Information Updating Cycle in Mexico

A. Blancas, National Institute of Statistics and Geography

Producing establishment statistics in developing countries: Tanzanian Experience by 2015

Z. Msokwa, Africa Statistical Solutions

Harmonised and integrated business surveys – Initiatives and good practices from Malaysia

S. Mohd Din, Department of Statistics Malaysia
N. Mansor

08:30–10:10 **Topic contributed session:** The future of business data collection – Experiences with integrated and automated data collection, Standard Business Reporting (SBR) and XBRL
Room 2

Chair: Ger Snijkers, Statistics Netherlands

Organizer(s): Ger Snijkers, Gert Buiten, Statistics Netherlands

Integrated Survey Management System: Statistics Portugal experience

P. Saraiva dos Santos, Statistics Portugal

<i>Harmonizing Financial Information from Businesses at Statistics Canada</i>	A. Born , Statistics Canada
<i>Automated data collection and reuse of concepts in order to minimize the burden</i>	J. Erikson , Statistics Sweden *Presenter is not an author C. Hertzman, A. Erikson
<i>Issues in automated data collection for financial information in the Netherlands</i>	G. Buiten , Statistics Netherlands G. Snijkers, R. van de Boom

08:30–10:10 Contributed session: Estimation including nonsampling error
Room 6

Chair: John Dixon, US Bureau of Labor Statistics

<i>Extrapolating a model beyond the sample. An application to cut-off sampling</i>	D. Hedlin , Stockholm University
<i>Calibration for nonresponse treatment using auxiliary information at different levels</i>	P. Andersson , Stockholm University C. Särndal
<i>Sensitivity of Econometric Estimates to Nonresponse Adjustment</i>	J. Sanchez , University of California Los Angeles
<i>Total Survey Error in the Swedish PPI/SPPI</i>	K. Strandberg , Statistics Sweden, A. Norberg, M. Fridén

08:30–10:10 Contributed session: Survey production and management
Room 13

Chair: Anders Holmberg, Statistics Norway

<i>Challenges and Benefits of Producing Business Statistics within a Highly Centralized Model</i>	D. Ravindra , Statistics Canada
<i>Management of business surveys and production of economic statistics; perspectives from the U.S. Bureau of Labor Statistics' Current Employment Statistics survey</i>	K. Robertson , US Bureau of Labor Statistics
<i>Integrating Project Management into the Survey Life Cycle at the US Census Bureau</i>	J. Eanes , US Census Bureau
<i>Challenges in Moving Research into the Operational Production Environment</i>	W. Barboza , National Agricultural Statistics Service

08:30–10:10 Contributed session: Measuring and improving data quality
Room 5

Chair: Mojca Bavdaz, University of Ljubljana

Verification of incoming data and ongoing quality assurance during CAPI data collection

K. Shackelford, University of Washington
et al.

An analysis of the quality of a NACE code based on answers to a survey

T. Deroyon, INSEE

Can data quality be enhanced through early notifications to responding agencies?

C. Ellis, RTI International
et al.

A system for continuous control of the NACE code in the Swiss business register

M. Ferster, Swiss Federal Statistical Office

Exploring Response Data to Inform Questionnaire Design

D. Willimack, US Census Bureau
et al.

10:10–10:40 Coffee break

Parallel Sessions

10:40–12:20 Invited session: The unit problem in business statistics
Room 2

Chair: Paul Smith, University of Southampton

Organizer(s): Li-Chun Zhang, University of Southampton

A first assessment of the impact of profiling on sampling

R. Le Gleut, INSEE
A. Leveuil, É. Martal

Resolving Differences in Statistical Units: Statistics Canada's Experiences with Using Administrative Data in Economic Programs

L. Jang, Statistics Canada

Exploring the effect of time-related classification errors on accuracy of growth rates in business statistics

A. van Delden, Statistics Netherlands
S. Scholtus, J. Burger

Estimating population size from multisource data with coverage and unit errors

M. Di Zio, Istat

10:40–12:20 Room 3	Topic contributed session: Data Warehouses – efficient and effective use of data science to reduce costs, improve timeliness and re-use data in the production of business statistics
	Chair: Pete Brodie, UK Office for National Statistics Organizer(s): Gary Brown, UK Office for National Statistics
	<div data-bbox="239 404 607 530"><i>A user manual for building and operating a statistical data warehouse</i></div> <div data-bbox="627 404 871 530">G. Brown, UK Office for National Statistics H. Goossens, Statistics Netherlands</div>
	<div data-bbox="239 530 607 628"><i>YTY – integrated production system for business statistics in Statistics Finland</i></div> <div data-bbox="627 530 871 628">A. Santaharju, Statistics Finland</div>
	<div data-bbox="239 628 607 736"><i>Developing an Integrated Business Survey System for Northern Ireland</i></div> <div data-bbox="627 628 871 736">J. Gillan, Northern Ireland Statistics and Research Agency et al.</div>
	<div data-bbox="239 736 607 856"><i>Portuguese Statistical Data Warehouse solution for Structural Business Statistics but not for the Business Register</i></div> <div data-bbox="627 736 871 856">S. Quaresma, Statistics Portugal</div>

10:40–12:20 Room 4	Topic contributed session: Multi-method questionnaire testing in establishment surveys
	Chair: Jennifer Beck, US Census Bureau Organizer(s): Jaki McCarthy, National Agricultural Statistics Service
	<div data-bbox="239 1076 607 1193"><i>Combining Multiple Questionnaire Testing Methods: the Bento Box Approach in the 2017 Census of Agriculture Testing</i></div> <div data-bbox="627 1076 871 1193">J. McCarthy, National Agricultural Statistics Service</div>

	<div data-bbox="239 1318 607 1417"><i>Using Analysis of Field Test Results to Evaluate Questionnaire Performance</i></div> <div data-bbox="627 1318 871 1417">K. Ott, National Agricultural Statistics Service et al.</div>
	<div data-bbox="239 1417 607 1530"><i>Developing and Evaluating a Short Form: Results and Recommendations from tests of a form designed to reduce questionnaire length</i></div> <div data-bbox="627 1417 871 1530">D. Moore, Washington State University K. Ott, A. Gertseva</div>

10:40–12:20 Contributed session: Managing respondent load
Room 5

Chair: Wim Kloek, Eurostat

Using Quantile Regression to Model Revisions Due to Late Reporting in the Current Employment Statistics Survey

J. Dixon, US Bureau of Labor Statistics

Comparing expected average response burden with actual burden distribution

J. Delaney, Central Statistics Office, Ireland

Considerations for designing and selecting a panel of law enforcement agencies in the United States

M. Berzofsky, RTI International
S. Zimmer, B. Shook-Sa

Nonresponse Adjustment in the IAB Job Vacancy Survey

C. Röttger, Institute for Employment Research

10:40–12:20 Contributed session: New approaches to Survey design
Room 6

Chair: Rebecca L. Morrison, National Science Foundation

Quantifying U.S. Urban Agriculture: A Pilot Study

L. Young, National Agricultural Statistics Service

Surveying Military Personnel: A Methodological Review

Z. Wang, Defence Research and Development Canada

Measuring the requirements of work: Developing a survey to provide information on the physical, cognitive, and environmental demands of today's jobs and the preparation needed to perform them.

P. Doyle, US Bureau of Labor Statistics

International School Surveys: Challenges and Solutions

S. Amer, RTI International et al.

10:40–12:20 Student Contest: Imputing multivariate data from two business populations – results of the ICES-V student contest
Room 13

Chair: Katherine J. Thompson, US Census Bureau

Developing a Student Contest for the ICES-V Conference.

K. Thompson, US Census Bureau

Multivariate Regression Imputation Approach to the Analysis of Item Nonresponse in a Retail Trade Survey Data

D. Lee, Iowa State University

Nonparametric Bootstrap to Generate Synthetic Population to Handle Complex Missing Data Problems

H. Sang, Iowa State University
Z. Wang

Imputation Procedure and Inference in the Presence of Imputed Data: Application to Industries

J. Miron, Université de Neuchâtel
A. Vallee

12:20–13:40 Lunch

Parallel Sessions

13:40–15:20 **Introductory overview lecture: Big data**
Room 2

Chair: Silvia Biffignandi, University of Bergamo

Practical Applications of Big Data for Official Statistics

P. Struijs, B. Braaksma, Statistics Netherlands

Overview of Big Data Research in European Statistical Agencies

M. Karlberg, Eurostat et al.

13:40–15:20 **Invited session: The Influence of Business Register Quality**
Room 3

Chair: Richard Penny, Statistics New Zealand

Discussant: Andrew Allen, UK Office for National Statistics

Organizer(s): Christopher Bryant, Statistics New Zealand

Methods and Challenges of Quality Measurement at Finnish Business Register

H. Heljala, Statistics Finland

Business Register as the backbone of statistics; challenges and opportunities regarding Business Register and outcome quality

I. Salemink, Statistics Netherlands et al.

How to communicate the contents of the quality indicators of a Statistical Business Register

P. Salamin, University of Applied Sciences and Arts Western Switzerland
F. Tomasini

Dated – undated – outdated: The issue of time stamps and reference dates in Business Register data

R. Sturm, Federal Statistical Office Germany

13:40–15:20 Room 13	Topic contributed session: Measuring the cost of payments for merchants and financial institutions	
	Chair: Kevin Moore, Board of Governors of the Federal Reserve System Discussant: Bjorn Segendorf, Sveriges Riksbank Organizer(s): Kim Huynh, Bank of Canada	
	<i>A Survey of Payments to Businesses in the U.S.: Can a Survey Cost-Effectively Measure Share of the Till?</i>	G. Gerdes , United States Federal Reserve Board of Governors
	<i>Sampling frame construction in the 2015 Bank of Canada Retailer Cost of Payments Survey</i>	A. Welte , Bank of Canada C. Jones
	<i>Maximizing Item-Level Responses through Adaptive Design in a Financial Institution Survey: Findings from the Federal Reserve Payments Study</i>	X. Liu , United States Federal Reserve Board of Governors G. Gerdes
	<i>Chargebacks: Another Payment Card Acceptance Cost for Merchants</i>	F. Hayashi , Federal Reserve Bank of Kansas City R. Sullivan, Z. Markiewicz

13:40–15:20 Room 4	Contributed session: Editing and imputation	
	Chair: Ton de Waal, Statistics Netherlands and Tilburg University	
	<i>Quarterly Inventories Survey Imputation</i>	D. Roash , Israel Central Bureau of Statistics
	<i>Imputation methods for nonresponse on different domains in a business survey</i>	F. Weideskog , Statistics Sweden
	<i>Reviewing selective editing thresholds at ONS</i>	C. Gaughan , UK Office for National Statistics I. Tomlinson
	<i>Power calculation of incomplete data using multiple imputation</i>	O. Harel , University of Connecticut R. Zha
	<i>Cleaning, supplementing, and imputing health facility data in Sub-Saharan Africa</i>	A. Wollum , University of Washington et al.

13:40–15:20 Contributed session: Survey and sample designs
Room 5

Chair: Yves Tillé, University of Neuchâtel

Developing the Optimal Sample Design at the Agency and Officer Levels for the Survey of Law Enforcement Personnel in Schools

B. Shook-Sa, RTI International et al.

The procedure of sampling coordination for business surveys implemented at INSEE: methodology and practice

E. Gros, INSEE

Measuring the informal economy using establishment surveys

A. Mata Greenwood, International Labour Office K. Walsh

A new approach for multipurpose stratification in agriculture surveys

E. Catanese, Istat M. D'Orazio

13:40–15:20 Contributed session: Contact strategies and response
Room 6

Chair: Diane Willimack, US Census Bureau

Substituting e-mail for hardcopy when inviting participation in a multi-form, multi-mode collection

C. Ellis, RTI International et al.

Email vs. Fed Ex: An experiment to examine effectiveness and efficiency of survey invitations on a study of U.S. colleges and universities

E. Jodts, Westat et al.

Improving Data Collection: Results from Two Contact Strategy Experiments in Economic Surveys

J. Langeland, US Census Bureau and Joint Program in Survey Methodology A. Tuttle

Methods of Improving Establishment Recruitment by Converting Soft Refusals; Lessons from the LA County Survey of Food Service Workers

P. Weinfurter, Westat V. Narayanan, R. Reporter

Maximizing Web Survey Response: Research from the Current Employment Statistics (CES) Survey

N. Johnson, US Bureau of Labor Statistics

15:20–15:50 Tea break

15:50–17:00 **Keynote session:** Keynote 2

Room 2

Chair: Boris Lorenc, Statistics Sweden

*Onward and Upward with Multiple
Data Sources for Business Statistics*

C. Citro, Committee on
National Statistics

17:00–17:30 *Closing Ceremony*

18:30–22:30 *Cash bar and conference dinner*

SOCIAL PROGRAM

OPENING CEREMONY AND WELCOME RECEPTION

Monday, 20 June, 17:00–19:00

Opening ceremony and welcome reception will be held at the conference venue.

GENEVA WALKING TOUR

Tuesday, 21 June, 18:00–20:00

CASH BAR AND CONFERENCE DINNER

Thursday, 23 June, 18:30–22:30

Cash bar and conference dinner will be held at the conference venue.

GENERAL INFORMATION ABOUT GENEVA

ALTITUDE

374 m (1,227ft) above sea level

CLIMATE

Average temperatures:

winter 10°C (50°F), summer 25°C (73°F)

CURRENCY

Swiss Franc (CHF or SFr)

Average rate: 1 Euro = CHF 1.10. The exchange rate for the Euro and the Swiss Franc is subject to daily market fluctuations. Conversion rates are available at foreign exchange offices, banks and in newspapers.

DRIVING

In town the speed is limited to 50 km/h or 30 km/h in some areas, on national roads beyond city limits 80 km/h, and on motorways 120 km/h. A motorway sticker, "vignette", is required on highways and semihighways. It is valid for 1 year and available at the price of CHF 40.– at post offices, garages, customs offices and touring club offices (TCS). Wearing seat belts, both in the front and in the back of a vehicle is required.

ELECTRICITY

Voltage 220 Volts – socket converters are available in local shops.

FREE GENEVA TRANSPORT CARD

All visitors staying at a hotel in Geneva can benefit from this personal and non-transferable pass free of charge.

It is issued by the hotel upon checking in, enabling its holder to use the entire public transportation network of Geneva without restriction (bus, train and boat). It is valid for the entire duration of the stay including the departure day. However the pass is limited to the area of Geneva and is not valid for trips around Switzerland.
