10. International Statistical Institute (ISI)

Registration Area
Emergency Telephone Messages

The general conference telephone number is **(801) 534-4750**. This will connect you to the JSM Special Assistance Desk and should only be used for emergency purposes. Emergency messages will be posted in the Cyber Center, located in the registration area. All other calls or messages should be left in the attendee’s guestroom on his/her voice mail.

Convention Hotels

The main phone numbers for the convention hotels are:

Assistance for Those with Disabilities

If you have a disability that may impede your participation, please contact a staff member at the Special Assistance Desk in the registration area of the Salt Palace Convention Center.

Child Care

Child care services may be organized through Guardian Angels. Providers will come to your hotel room. The rate is $60 for a minimum of four hours of service for the first child, with an additional $1 per hour for each additional child. The fee for families that want to share a sitter is $2 more per hour for each family, or $5 more per hour for each family when children in diapers are involved. A $10 transportation fee is added to the total each time a sitter is called. For more information, call (206) 325-2327 or visit [www.guardianangelbaby.com](http://www.guardianangelbaby.com).

The Caucus for Women in Statistics will provide a subsidy toward four hours of babysitting per family for up to 14 families. If you are interested, contact Tena I. Katsaounis at katsaounis.1@osu.edu.

Electronic Devices

All cell phones, pagers, and other electronic devices must be turned off before attending any JSM session. These devices cause interference with the audiovisual equipment and are a distraction to the session speaker and attendees.

Smoking Policy

Smoking is not permitted at any JSM function, unless the event is outside.

Photographs and Videotaping

Taking photographs or using video equipment in any session or at any JSM event is prohibited, and violators will be asked to leave. Only the official JSM photographer will be authorized to take photographs.

Recycling

You can help by making use of the paper, plastic, and aluminum trash containers located throughout the Salt Palace Convention Center. Also, participating in the towel and linen programs at area hotels significantly reduces the amount of energy and water used. You also can print sparingly and use the paper recycling containers available at the Cyber Center.
Poster Sessions - New Format This Year!

CC – Exhibit Hall D
Designed for the display of graphic materials, rather than the text of a paper, these sessions provide authors an assigned poster board that corresponds with the number listed in this program. Though speakers will only be present at their posters during their allotted session time, the posters will be displayed on Monday and Tuesday from 8:00 a.m. to 6:00 p.m., allowing attendees to view them throughout the day.

Introductory Overview Lectures
Introductory Overview Lectures make up a series of talks on a variety of topics. No preregistration is necessary, and they are open to all registrants.

Sunday, July 29, 4:00 p.m.–5:50 p.m. CC – 255E
Session 37: Adaptive Designs and Other Emerging Issues in Clinical Trials

Monday, July 30, 8:30 a.m.–10:20 a.m. CC – Ballroom B
Session 80: Statistical Machine Learning and Its Applications in Bioinformatics

Tuesday, July 31, 8:30 a.m.–10:20 a.m. CC – Ballroom B
Session 219: Improving Statistical Presentations and Posters

Wednesday, August 1, 8:30 a.m.–10:20 a.m. CC – Ballroom B
Session 353: How Scientists Can Work Effectively with the Media

Late-Breaking Sessions
Two additional sessions for invited Late-Breaking Sessions were approved to cover important topics emerging close in time to JSM. These are exciting additions to the JSM program, most of which is organized well in advance.

Monday, July 30, 2:00 p.m.–3:50 p.m. CC – Ballroom B
Session 171: Statistical Analysis of an Archeological Find

Wednesday, August 1, 2:00 p.m.–3:50 p.m. CC – Ballroom B
Session 443: War and Death in Iraq

Business and Committee Meetings
All meetings are open unless shown as “closed” or “by invitation only.” Section business meetings provide the opportunity to give suggestions on Section business, and members are urged to attend.

Opening Mixer CC – Ballrooms C–J
Don’t miss your chance to get JSM 2007 off to a great start and enjoy refreshments with your colleagues. Attend the Opening Mixer Sunday, July 29, from 8:00 p.m. to 10:30 p.m.

Student Mixer GA – Venezia Garden Salon
Student registrants can enjoy refreshments, meet their peers, and make plans for local events and outings at the Student Mixer, Monday, July 30, from 6:00 p.m. to 7:30 p.m. The mixer is sponsored by the ASA Committee on Membership Retention and Recruitment, and a number of door prizes will be given.

Society Business Meetings
You are encouraged to attend your society business meetings, if held during JSM. This is your chance to give input to officers and other members of your society.

American Statistical Association
Sunday, July 29, 6:00 p.m.–7:30 p.m. CC – 251 D

Statistical Society of Canada Reception
Monday, July 30, 5:00 p.m.–7:00 p.m. GA – Fontainbleau

IMS Presidential Address Reception
Monday, July 30, 9:30 p.m.–11:00 p.m. CC – Ballroom A

IMS Business Meeting
Tuesday, July 31, 12:30 p.m.–1:30 p.m. CC – 250 A

International Biometric Society, ENAR Business Meeting
Tuesday, July 31, 5:30 p.m.–6:30 p.m. CC – 250 A

IMS New Member and Student Reception
Tuesday, July 31, 5:30 p.m.–7:00 p.m. GA – Audubon
Before Leaving JSM...

Recycling Badge Holders
Please place JSM badges and badge holders that you will not reuse in a designated bin in the registration area.

2007 JSM Proceedings
Instructions for JSM 2007 presenters are available at www.amstat.org/meetings/jsm/2007; click the “Program” tab and select “Proceedings.” The submission site will open August 1, 2007.

JSM 2008
The 2008 Joint Statistical Meetings will be held in Denver, Colorado, August 3–7, at the Denver Convention Center. Preliminary information about JSM 2008 can be found at Booth #107 in the exhibit hall. The complete listing of the 2008 Program Committee and instructions for submitting contributed papers is at www.amstat.org/meetings/jsm/2008.

If You Are Not a Member...
Information about the ASA, ENAR, WNAR, IMS, and SSC is available at the society booths located in the registration area and exhibit hall of the Salt Palace Convention Center. Each society provides a variety of publications and activities, and student membership is offered at substantially reduced rates.

If you are not a member of the ASA, join now and receive a discount on your first year. Join at the ASA Membership Booth in the registration area by Thursday, August 2, at 10:00 a.m. to receive this special JSM discount. The discount is valid for regular membership only. Ask about other memberships for students, postgraduates, retirees, and developing country residents.
Registration

Everyone attending JSM, including participants in the program, is required to register. Materials for those who registered in advance are available at the JSM Registration Desk, located on the lower level, South Foyer, of the Salt Palace Convention Center. At the Registration Desk, you also may add Continuing Education courses, the Career Placement Service, tours, guest badges, luncheons, and roundtables. Hours of operation:

<table>

</tbody>
</table>

JSM registration includes the Program Book and Abstract Book or CD-ROM; access to EXPO 2007; and admission to the Sunday night Opening Mixer, the Monday evening Student Mixer (students only), and the Informal Dance Party on Tuesday evening.

If you did not purchase speaker with lunch or roundtable tickets with your advance registration, ask at the JSM Registration Desk for availability. Limited seating is still available for some luncheons and roundtables. Tickets will be sold until 2 p.m. on the day prior to the event. NOTE: No onsite kosher or heart healthy meal tickets are available.

ASA Continuing Education Courses

Courses will be held in rooms on Level 1 of the Salt Palace Convention Center. For room assignments, review the general program or visit the Special Assistance Desk in the South Foyer of the Salt Palace Convention Center. To register onsite for a course, visit the JSM Registration Desk, also located in the South Foyer. Availability may be limited, and text books are not available.

Speaker Work Rooms

The speaker work rooms are available for all presenters. There will be practice equipment available consisting of an overhead projector and screen and a data projector and screen. To accommodate more than 3,200 presenters, each speaker will be limited to 10 minutes to test the equipment. Rehearse your verbal presentation in your hotel room to ensure everyone has a chance to test the equipment.

Presenters using laptops are encouraged to report to the speaker work room for training on how to connect to the data projector. Audiovisual technicians will be available to assist with questions or problems.

Do You Need a Break?

Have a cup of coffee courtesy of GfK. Coffee will be available outside technical sessions rooms on all convention center levels Monday between 10:15 a.m. and 10:45 a.m. Enjoy a refreshing cup of coffee between your morning sessions.

Thank you GfK!

**Wireless Internet Access**  
The Salt Palace Convention Center has wireless internet access throughout the building for $15 per day.
President’s Invited Address  Monday, July 30, 4:00 p.m.
“Regularization Methods in Statistical Model-Building: Statisticians, Computer Scientists, Classification, and Machine Learning”
Grace Wahba is the I. J. Schoenberg-Hilldale Professor of Statistics at the University of Wisconsin-Madison as well as a member of the Computer Sciences Department and Department of Biostatistics and Medical Informatics. She is a member of the National Academy of Sciences and American Academy of Arts and Sciences. She also is a Fellow of the IMS, ASA, and American Association for the Advancement of Science. Since the early 70s, beginning with smoothing splines, she has been interested in regularization methods for nonparametric statistical model building. Her recent research involves analysis of datasets where only noisy, incomplete dissimilarity information is available and looking for important patterns or clusters of interacting variables.

IMS Presidential Address  Monday, July 30, 8:00 p.m.
“Open Access to Professional Information”
Jim Pitman is IMS president and professor of statistics and mathematics at the University of California, Berkeley. He has worked toward improving the quality and quantity of open-access content in the mathematical sciences by promoting and launching open-access journals for expository and survey material and developing open-source bibliographic software to encourage distributed alternatives to centrally controlled indexing systems. Recent projects include launching open-access expository journals Probability Surveys and Statistics Surveys and constructing open systems for navigation of online resources in the mathematical sciences.

Deming Lecture  Tuesday, July 31, 4:00 p.m.
“A Modern Framework for Enterprise Excellence”
Douglas C. Montgomery is professor of industrial and management systems engineering at Arizona State University. He is a Fellow of the American Society for Quality Control, ASA, and Institute of Industrial Engineers. He is a member of the honorary societies Phi Kappa Phi, Sigma Xi, Mu Sigma Rho, and Alpha Pi Mu. Montgomery’s professional interests include design of experiments, time series analysis and forecasting, and applications of linear models. He also is interested in operations research and statistical methods applied to modeling and analyzing manufacturing systems.

Wald Lecture I  Tuesday, July 31, 4:00 p.m.
“A Review of Some Surprises Encountered in Bayesian Model Selection”

Wald Lecture II  Wednesday, August 1, 10:30 a.m.
“Model Selection: Approximations and Multiplicities”

Wald Lecture III  Thursday, August 2, 10:30 a.m.
“Working with Inexact Models: The World of Computer Modeling”
Jim Berger earned his PhD from Cornell University in 1974. He has served as president of the IMS, chair of the ASA’s Section on Bayesian Statistical Science, and president of the International Society for Bayesian Analysis. He also was awarded Guggenheim and Sloan Fellowships, the COPSS Presidents’ Award, and the Sigma Xi Research Award. Berger’s research has been in primarily Bayesian statistics, foundations of statistics, statistical decision theory, simulation, and model selection.
**ASA Presidential Address** Tuesday, July 31, 8:00 p.m.
“Statistics: Harnessing the Power of Information”

**Mary Ellen Bock** is professor and head of the Department of Statistics at Purdue University in West Lafayette, Indiana. She is Fellow and president of the ASA and Fellow of the American Association for the Advancement of Science and IMS. Her areas of statistical research include applications in computational biology, bioinformatics, econometrics, and mathematical statistics.

---

**COPSS Fisher Lecture** Wednesday, August 1, 4:00 p.m.
“R. A. Fisher, Randomization, and Current Practice in Multicenter Clinical Trials”

**Marvin Zelen**, dubbed “Father of Biostatistics,” is professor of statistical science at Harvard School of Public Health. He is recognized as one of the pioneers of using Kronecker products and orthogonal projection operators in experimental design problems involving factorial and unbalanced designs. He also is known for his “play the winner rule” in randomized clinical trials, and his methods are still used in designing cutting-edge, multicenter clinical trials. Zelen is a Fellow of the ASA, American Association for the Advancement of Science, IMS, and International Statistical Institute and an elected member of the International Statistical Institute and American Academy of Arts and Sciences.

---

**IMS Special Lectures**

---

**Medallion Lecture I** Sunday, July 29, 2:00 p.m.
“Modeling Genes: Statistical Challenges in Modern Genetics”

**Peter Donnelly** is professor of statistical science at the University of Oxford. He is a Fellow of the IMS and Royal Statistical Society, a member of the International Statistical Institute, and an Honorary Fellow of the Institute of Actuaries. He has been awarded the Mitchell Prize of the ASA and International Society for Bayesian Analysis and the Guy Medal in Silver of the Royal Statistical Society. Donnelly’s early work was in applied probability, particularly stochastic models in genetics, but, for some years, his research has focused on genetics. He played a major role in the HapMap project, an international collaboration that followed the Human Genome Project in studying genetic diversity in worldwide populations. He currently chairs a collaboration of 25 UK research groups studying 12 common human diseases.

---

**Rietz Lecture** Sunday, July 29, 4:00 p.m.
“Statistical Problems of Gene Mapping”

For the last 10 years, **David Siegmund** has concentrated on statistical aspects of gene mapping. As a statistician also interested in probability theory, his research concentrates on statistical problems that arise in scientific applications and require novel probability theory for their resolution. Before 1985, his research concentrated on sequential analysis, with a primary focus on the design and analysis of sequential clinical trials.
Medallion Lecture II  Monday, July 30, 10:30 a.m.
“Understanding Ecological Communities”
Claudia Neuhauser is HHMI professor and head of the Department of Ecology, Evolution, and Behavior at the University of Minnesota, Twin Cities. Her work is at the interface of ecology and evolution, as she investigates effects of spatial structure on community dynamics, in particular, the effect of competition on the spatial structure of competitors and the effect of symbionts on the spatial distribution of their hosts. In addition, her research in population genetics has resulted in the development of statistical tools for random samples of genes. She is currently director of an NSF-funded grant on nonequilibrium dynamics across space and time, which provides interdisciplinary education and training to graduate students from ecology, geology, civil engineering, and computer science.

Medallion Lecture III  Tuesday, July 31, 8:30 a.m.
“Functional Regression Analysis: Models, Methods, and Applications”
Hans-Georg Müller is professor of statistics at the University of California, Davis. Among his current research interests are the theory and methodology of high-dimensional and functional data analysis and applications in biodemography, genomics, and finance. He is a member of the International Statistical Institute and a Fellow of the ASA, IMS, and American Association for the Advancement of Science.

Medallion Lecture IV  Wednesday, August 1, 8:30 a.m.
“Quantile Regression under Censorship”
Xuming He is professor of statistics at the University of Illinois, Urbana-Champaign. He is a Fellow of the ASA and IMS. His primary research interests in statistics include robust methods, semi/nonparametric modeling, large-sample theory, quantile regression, dimension reduction, and resampling methods. His interdisciplinary research spans genomics, epidemiology, educational testing, dysphagia research, and atmospheric studies. He is currently the IMS Bulletin editor and serves on the editorial boards of Annals of Statistics and JASA.

Medallion Lecture V  Wednesday, August 1, 2:00 p.m.
“Joint Modeling of Longitudinal and Survival Data”
Jane-Ling Wang is professor of statistics and graduate adviser of the biostatistics program at the University of California, Davis. She has served on various committees for the ASA, International Chinese Statistical Association, IMS, and the Bernoulli Society. She is currently president-elect of the International Chinese Statistical Association. Wang’s research areas include aging and longevity, biodemography, dimension reduction methods, functional and longitudinal data analysis, joint modeling of longitudinal and survival data, and survival analysis. She is a Fellow of the ASA and IMS and an Elected Member of the International Statistical Institute.

Seeking a CAREER in STATISTICS?

Salt Lake City, UT
July 29–August 1

Are you nearing graduation and wondering about entry-level jobs?
Are you an experienced statistics professional interested in career information?

Register for the JSM Career Placement Service!

What can the CAREER PLACEMENT SERVICE do for YOU?

Each year, hundreds of companies, universities, recruiters, and government agencies search for applicants using the JSM Career Placement Service. The JSM Career Placement Service provides the best opportunity for qualified applicants to meet employers, establish valuable contacts, and learn about organizations employing statisticians.

Career Placement Service BENEFITS

APPLICANT READING AREA—for applicants to review complete job descriptions and contact information for all registered employers.

VISIBILITY TO EMPLOYERS—applicants who register by July 12, 2007, will have their information and résumés included in the advance applicant access database, available to employers prior to the meeting. Employers often contact applicants in the database prior to JSM to schedule interviews.

COMPUTERIZED MESSAGE CENTER—allows applicants and employers to communicate throughout the meeting.

ONLINE ACCESS TO JOB POSTINGS—this year, included with ALL Career Placement Service registrations.

Register at the registration desk, and bring your résumé to Hall C!

ASG, Inc. 416

Cary, North Carolina

ASG is a global outsourcing and specialty staffing organization. By working with companies in the clinical trial arena, we help provide a better quality of life for individuals dependent on the health care community. We help improve or save lives by providing cost-effective, functional outsourcing and staffing services to pharmaceutical, CRO, biotechnology, and medical device sectors in the business of discovering therapies.

ASA-SIAM Series 104

Alexandria, Virginia

The ASA-SIAM Series on Statistics and Applied Probability is published jointly by the American Statistical Association and the Society for Industrial and Applied Mathematics. The series consists of a broad spectrum of books on topics in statistics and applied probability and provides inexpensive, quality publications of interest to the societies' intersecting membership.

Addison-Wesley 400

Boston, Massachusetts

Please visit Addison-Wesley in Booth 400. Stop by, meet our authors, and explore a full display of our statistics titles, including DeVeaux/Velleman/Bock's Stats: Data and Models, 2/e, Weiss Introductory Statistics, 8/e, and Triola Essentials of Statistics, 3/e, as well as our texts in biostatistics, probability, and time series. Also, try out some of our new and exciting technology, including MyStatLab and ActivStats.

Allergan, Inc. 423

Irvine, California

Allergan, Inc., is a premier, global specialty pharmaceutical and medical device company that discovers, develops, and commercializes innovative products for ophthalmology, neurosciences, medical dermatology, medical aesthetics, and other specialty markets. The company is dedicated to delivering value to its customers, satisfying unmet medical needs, and improving lives.

American Statistical Association 101, 103, 105

Alexandria, Virginia

Since 1839, the ASA has been the world's leading professional association for statisticians. The ASA serves as a forum for sharing ideas, experiences, innovations, and accomplishments. Members are involved in medicine, computer applications, quality management, analytical research, setting standards for statistics, and promoting statistical education.

Biostat, Inc. 325

Englewood, New Jersey

Birkhäuser 307

New York, New York

Save 20% on all books at the Birkhäuser booth. Browse Birkhäuser's selection of first-rate titles in a variety of statistical areas and applied probability. Check out best-selling, new, and forthcoming titles, such as P. Good's Resampling Methods, 3/e, W. Woyczynski's A First Course in Statistics for Signal Analysis, T. Ogden's Essential Wavelets for Data Analysis, and G. Schay's Introduction to Probability with Statistical Applications. Also on display will be books from the Statistics in Industry and Technology Series and Probability and Its Applications Series.

Blackwell Publishing 321

Hoboken, New Jersey

Blackwell Publishing is a leading international publisher in all areas of statistics, science, technology, and medicine. Please stop by our booth for complimentary copies of our journals, and visit our web site at www.blackwellpublishing.com for information about all our publications.

Bureau of Economic Analysis 109

Baltimore, Maryland

The Bureau of Economic Analysis (BEA) promotes a better understanding of the U.S. economy by providing the timeliest, relevant, and accurate economic accounts data in an objective and cost-effective manner.

Bureau of Labor Statistics 108

Washington, DC

The Bureau of Labor Statistics is the principal fact-finding agency for the federal government that provides statistical data online at www.bls.gov and in various publications.
The Centers for Disease Control and Prevention is one of the 13 major operating components of the Department of Health and Human Services, which is the principal agency in the United States government for protecting the health and safety of all Americans and for providing essential human services.

COMSYS is the leading provider of SAS, statistics, and clinical services to companies nationwide. We enable statisticians and programmers to support their customers more efficiently through innovative analytical applications and overflow support. COMSYS is a SAS Alliance Gold Partner with more than 40 offices in the United States and Canada.

CRC Press, a member of the Taylor & Francis Group, is a premier publisher of scientific and technical books, journals, and electronic databases. Please visit our booth during the show to peruse our titles, pick up a sample journal, and purchase books while taking advantage of show discounts.

Cambridge University Press

Capital One is a Fortune 500 company providing access to credit for tens of millions worldwide. We also provide auto, home, and business loans, plus banking and other services. Statistical expertise is central to our success, which is why we seek superior applied statisticians at all career stages.

Cytel, Inc. is a leading provider of clinical trial services and statistical software for biopharmaceutical development and general research applications. Cytel's East* is used at hundreds of biopharmaceutical sites worldwide to design adaptive, group sequential and traditional trials. StatXact*, LogXact*, and new CrossOver® comprise Cytel's renowned exact statistics packages.

Duxbury-Thomson is celebrating its 20th year, Cytel, Inc., is a leading provider of clinical trial services and statistical software for biopharmaceutical development and general research applications. Cytel's East® is used at hundreds of biopharmaceutical sites worldwide to design adaptive, group sequential and traditional trials. StatXact*, LogXact*, and new CrossOver® comprise Cytel's renowned exact statistics packages.

Eli Lilly and Company is a leading, innovation-driven corporation committed to developing a growing portfolio of best-in-class and first-in-class pharmaceutical products that help people live longer, healthier, and more active lives. Lilly products treat depression, schizophrenia, attention-deficit hyperactivity disorder, diabetes, osteoporosis, and many other conditions. We are committed to providing answers that matter.

Elsevier Academic Press delivers world-class content to statisticians and mathematicians, from textbooks to corporate and clinical research references. Come see our new and bestselling books in all areas of statistics, from renowned authors Sheldon Ross, Robert Riffenburgh, C. R. Rao, and Ronald Forthofer. Conference discounts apply and sample journals are available.

Fforde is a global executive search firm specializing in staffing solutions for the pharmaceutical, biotechnology, CRD, and medical devices industries. Fforde has offices located in the United States, Europe, and the UK, making us a truly global staffing solution.

GE Money is a leading provider of credit services to consumers, retailers, and auto dealers with more than 300,000 employees, $180 billion in assets, and businesses in 54 countries. We offer flexible work arrangements, a diverse environment, world-class leadership, comprehensive training, and “fast track” leadership programs to help you achieve your career goals.
Google

Mountain View, California

Google's innovative search technologies connect millions of people around the world with information every day. Founded in 1998 by Stanford PhD students Larry Page and Sergey Brin, Google is now a top web property in all major global markets. Google's targeted advertising program provides businesses of all sizes with measurable results, while enhancing the overall web experience for users. Google is headquartered in Silicon Valley, with offices throughout the Americas, Europe, and Asia. For more information, visit www.google.com.

Hawkes Learning Systems

Charleston, South Carolina

Discover the benefits of using interactive software to teach and learn mathematics. Hawkes Learning Systems promotes grade improvement and motivates students to learn by providing tutorials, unlimited practice, helpful feedback from artificial intelligence, and mastery-based homework. Come see a demonstration of our state-of-the-art test generator, online grade book, and student courseware.

INFORMS

Hanover, Maryland

The Institute for Operations Research and the Management Sciences (INFORMS) is a professional association with 10,000 members that publishes 12 journals used extensively in business and engineering schools. Have a membership question? Want a look at INFORMS' newest publications? Need advice on marketing the profession? Stop by the INFORMS booth to talk with the staff. For details, visit www.informs.org.

Insightful Corporation

Seattle, Washington

Insightful Corporation is a provider of predictive analytics and reporting solutions that gives companies the knowledge to act™. Insightful products S-PLUS®, Insightful Miner®, S-PLUS® Server, and InFact® allow customers to perform sophisticated statistical data analysis and data mining and create high-quality graphics. For more information, visit www.insightful.com.

Institute of Mathematical Statistics

Beachwood, Ohio

Internal Revenue Service

Washington, DC

The Statistics of Income (SOI) Division of the IRS produces income data compiled from tax and information returns filed with the IRS. SOI data include financial information about individuals, business taxpayers, tax-exempt organizations, and more. Data are available through publications, electronic databases, Tax Stats (www.irs.gov/taxstats), and SOI’s Statistical Information Services, (202) 874-0410.

JMP, a business unit of SAS

Cary, North Carolina

JMP, a division of SAS, develops JMP® software, which brings comprehensive data analysis to the desktop, empowering users to interactively explore, visualize, and understand their data. Visit us at www.jmp.com.

JSM 2008 Denver

Alexandria, Virginia

Denver, Colorado, host of JSM 2008, welcomes you. Please stop by Booth #107 for visitor information and answers to your questions.

John Wiley & Sons

Hoboken, New Jersey

Wiley-Blackwell is a global publisher of print and electronic statistical information, including International Statistical Reviews: Journal of the Royal Statistical Society Series A (Statistics in Society), B (Statistical Methodology), and C (Applied Statistics); Biometrics; Statistics in Medicine; Scandinavian Journal of Statistics; Statistics Neerlandica; Biometrical Journal; and Statistical Analysis and Data Mining. Visit us online at www.wiley.com/statistics.

Johnson & Johnson Family of Companies

New Brunswick, New Jersey

Johnson & Johnson, through its operating companies, is the world’s most comprehensive and broadly based manufacturer of health-care products and a provider of related services for the consumer, pharmaceutical, and medical devices and diagnostics markets.

Kforce Clinical Research Staffing

Tampa, Florida

Kforce Clinical Research provides a full range of outsourcing alternatives and traditional staffing services for the biopharmaceutical industries. Established in 1988, Kforce Clinical Research is a leader in hybrid solutions. Our expertise includes clinical trial monitoring and management, drug safety and surveillance, clinical data management, biostatistics, data entry, and clinical application development.

MacKichan Software

Poulsbo, Washington

Scientific WorkPlace 5.5 simplifies writing, sharing, and doing mathematics. A click of a button allows you to typeset in LaTeX. The integrated computer algebra system lets you solve and plot equations; animate 2D and 3D plots; rotate, move, and fly through 3D plots; create 3D implicit plots; and more.

MedFocus LLC

Chicago, Illinois

MedFocus offers clinical and scientific research contract outsourcing and staffing to the pharmaceutical, biotechnology, and medical device industries. MedFocus allows you to maintain consistency with high-quality consulting while managing variability in clinical work demand without headcount issues. For more information, visit www.medfocus.com.

Minitab Inc.

State College, Pennsylvania

Minitab 15® is the leading software for statistics education worldwide. It is accurate, reliable, and easy to use, with powerful graphics abilities. Minitab integrates into curriculums seamlessly and affordably and is used at more than 4,000 colleges and universities. Visit www.minitab.com/minitab for a free trial version.

NCSS

Kaysville, Utah

We will be displaying our new NCSS 2007 data/statistical analysis software; PASS 2005, our popular power analysis and sample size software; and GESS 2006, our new microarray analysis software. Stop by and pick up a free trial CD while they last.

National Center for Health Statistics

Hyattsville, Maryland

The NCHS exhibit will showcase the various NCHS programmatic areas, with an emphasis on statistical research and methodology. The exhibit will allow attendees to view and acquire a host of publications, electronic products, and other promotional products.
National Security Agency 425, 427
Ft. Meade, Maryland

The Information Assurance mission provides the solutions, products, and services—and conducts defensive information operations—to achieve information assurance for the information infrastructures critical to U.S. national security interests. The foreign signals intelligence, or SIGINT, mission allows for an effective, unified organization and control of all the foreign signals collection and processing activities of the United States.

Oxford University Press 215, 217
New York, New York

Oxford University Press is a leading international publisher of books and journals in statistics and math. Visit booths 215 and 217 to see our latest titles, enter our raffle to win $100 worth of books, join our email list, and receive a 20% discount on all titles on display.

Palisade Corporation 124
Ithaca, New York

Palisade Corporation has been a leading provider of risk analysis, decision analysis, optimization, and data analysis software since 1984. Recently, Palisade released NeuralTools, a neural networks add-in for Microsoft Excel, and StatTools, a statistical analysis add-in for Microsoft Excel that replaces Excel's statistics functions with a robust and accurate set of statistical analysis procedures and routines.

Pfizer Global Research and Development 327
New London, Connecticut

Imagine a career that touches the lives of people everywhere. Imagine an opportunity to reach beyond your area of expertise to impact something greater than the bottom line. Imagine playing a key role in some of the most critical issues facing health care today. Relying on our scientific talent, a steady stream of breakthroughs ensures the best medicines for man and animals in years to come. This is your career at Pfizer: a career unlike any other.

Prentice Hall 401, 403
Upper Saddle River, New Jersey

Prentice Hall, a premier college textbook publisher, will display statistics textbooks ranging from the introductory level, such as Agresti/Franklin’s Statistics: The Art and Science of Learning from Data and McClave/Sincich’s Statistics 10/e, to more advanced and specialized course texts, such as Blair/Taylor’s Biostatistics for the Health Sciences and Tanis/Hogg’s A Brief Course in Mathematical Statistics.

Prosoft Software, Inc. 329
King of Prussia, Pennsylvania

Prosoft Software, Inc., is a contract research organization with expertise in biostatistics, data management, project management, and medical writing. Our experience spans all areas of drug and medical device development, including preclinical and clinical phases I–IV in such areas as cardiovascular, dermatology, respiratory, allergy, immunology, CNS, and oncology.

REvolution Computing 405, 407
New Haven, Connecticut

REvolution Computing is the leading commercial provider of software and support for the R statistical and business intelligence tools (www.revolution-computing.com). REvolution’s solution for computational statistics is fully supported and easy to use. It includes commercial features and automatic parallel processing. The REvolution solution for computational statistics renders R practical for mainstream, commercial, and regulated use. REvolution Computing truly is R Evolved!

RTI International 213, 312
Durham, North Carolina

With a staff of more than 2,600 people, RTI International is an independent, nonprofit organization that offers innovative research and technical solutions to governments and businesses worldwide in the areas of health, epidemiology, and pharmaceuticals; advanced technology; surveys and statistics; education and training; economic and social development; and the environment.

SAGE Publications 324
Thousand Oaks, California

SAGE Publications—an independent international publisher in the social sciences, technology, and medicine—provides journals, books, and electronic media of the highest caliber. Researchers, students, and professionals have relied on our innovative resources for more than 40 years. Please stop by our booth or visit us at www.sagepub.com.

SAS Application 201, 203, 205
Cary, North Carolina

SAS will exhibit its analytical software for statistics, data mining, econometrics, and statistical quality control. Please visit the SAS booth and learn about new directions in statistical graphics, as well as new downloadable software for Bayesian analysis.
SAS Institute, Education Division 207, 209
Cary, North Carolina
SAS Education offers a broad curriculum of SAS, JMP, and statistical courses to support our users. The division administers the SAS Global Certification Program, where users can earn globally recognized credentials for their knowledge. The Higher Education Consulting Program supports institutions of higher learning incorporate SAS into their curricula.

SAS Publishing 204, 206, 208
Cary, North Carolina
Visit the SAS Publishing booth to learn more about saving 20% on orders placed or mailed to us by August 31, new SAS product documentation titles, new SAS Press Series titles, and SAS® Learning Edition 4.1. SAS Publishing staff members are available to answer questions and assist you with your orders.

SIAM: Society for Industrial and Applied Mathematics
Philadelphia, Pennsylvania
Visit the SIAM booth to check out the titles in the ASA-SIAM Series on Statistics and Applied Probability, get recently published books and information, and see sample issues of SIAM's renowned journals. Membership applications also will be available. Don't forget to pick up a copy of SIAM News for the road.

SPSS, Inc. 306, 308
Chicago, Illinois
SPSS Inc. is a leading global provider of predictive analytics software and solutions. More than 250,000 public sector, academic, and commercial customers rely on SPSS to help increase revenue, reduce costs, and detect fraud. Founded in 1968, SPSS is headquartered in Chicago, Illinois. For additional information, please visit www.spss.com.

SYSTAT Software, Inc. 225
San Jose, California
SYSTAT is a high-value, integrated desktop statistics and graphics software package for scientists, engineers, and statisticians that provides the most extensive selection of reliable statistics and high-quality, interactive graphics, enabling users to analyze their data, make meaningful discoveries, and present their results attractively and efficiently.

Salford Systems 224
San Diego, California
Salford Systems develops advanced statistical and data mining software, including the CART® decision tree, MARS® automated regression, TreeNet® boosted decision trees, and Random Forests®. Salford Systems strives to make the best academic research easily usable by the practicing data analyst and recently won several distinguished international honors.

Smith Hanley 320
New York, New York
Our two divisions, permanent placement and contract staffing, offer targeted recruitment in statistics, biostatistics, SAS programming, data management, market research health outcomes, and epidemiology. Since 1980, we’ve provided clients and recruits dedicated service, experience, and insight into industry trends for positions at all levels. Visit www.smithhanley.com or www.smithhanley-consulting.com for more information.

Space-Time Research 426
Victoria, Australia
Space-Time Research provides intuitive, easy-to-use business intelligence and statistical solutions. SuperSTAR technology provides statistical, analytical, and multiformat visualization; simple ad hoc reporting; and geospatial analysis. SuperSTAR uses service-oriented architecture technology to deliver client-based and true web applications. Data management features individual confidentiality and data security.

Springer 307, 309, 406, 408
New York, New York
Springer is one of the largest international publishers of scientific literature (4,000 new books per year and more than 1,200 journals). Springer’s statistics book program is world-renowned and has produced many best-selling textbooks, monographs, and reference works. Notable publications include the Springer Series in Statistics, Statistics for Biology and Health, and Statistics and Computing.

Stat-Ease, Inc. 305
Minneapolis, Minnesota
Stat-Ease, Inc., produces two easy-to-use Windows programs for design of experiments (DOE), including Design-Ease® software for finding breakthrough factors and Design-Expert® software for optimization. The company also offers computer-intensive DOE workshops, including Experiment Design Made Easy, Response Surface Methods for Process Optimization, and Mixture Design for Optimal Formulations.

StatPoint, Inc. 113
Herndon, Virginia
StatPoint Inc. develops the STATGRAPHICS® line of statistical analysis software products. Used for 25 years for data analysis
by Fortune 1000 companies and small enterprises worldwide, STATGRAPHICS® Centurion XV.II is available in four languages. StatPoint products include STATGRAPHICS® Mobile, STATBEANS® Java Library, and STATGRAPHICS® MultiLingual® (coming this summer), providing immediate interchangeability of input and output languages.

StatSoft, Inc. 126, 128
Tulsa, Oklahoma
StatSoft, Inc., creator of STATISTICA, is one of the largest developers worldwide of enterprise-wide and single-user software for data analysis, data mining, and quality control. STATISTICA has received the highest rating in every comparative review of statistics software since its first release (1993)—a record unmatched in the industry.

Statistical Society of Canada 102
Ottawa, Ontario
The Statistical Society of Canada’s mission is to encourage the development and use of statistics and probability in Canada. It is the Canadian equivalent of the American Statistical Association. The Statistical Society of Canada also offers two levels of accreditation, the Professional Statistician (P.Stat.) and the Associate Statistician (A.Stat.).

The Cambridge Group LTD 115
Westport, Connecticut
The Cambridge Group LTD focuses on careers in biostatistics, clinical data management, clinical systems, and SAS programming. Opportunities range from entry level through executive posts, both permanent and contract, in the pharmaceutical and biotechnology industries.

U.S. Department of Education/IES 304
Washington, DC
IES is the research arm of the U.S. Department of Education. Its mission is to provide rigorous evidence on which to ground education practice and policy. This mission is accomplished through its four centers: National Center for Education Statistics, National Center for Education Research, National Center for Education Evaluation and Regional Assistance, and National Center for Special Education Research. Information about research and evaluation activities, funding opportunities, and reports may be found at ies.ed.gov.

USDA, NASS 414
Washington, DC
The National Agricultural Statistics Service is a world leader in sampling, data collection, and estimation procedures for economic, environmental, and agricultural surveys and censuses. The agency also creates a number of remote-sensing and geographic information system statistical products and conducts ongoing applied research on statistical methodology and estimation approaches. Plans are under way for the 2007 Census of Agriculture.

W.H. Freeman and Company 300, 302
New York, New York

Wolfram Research 402
Champaign, Illinois
Wolfram Research is the world’s leading developer of computational software for science and technology, offering organization-wide computing solutions. Led by Mathematica, Wolfram’s flagship product, the company’s software is relied on today by several million enthusiastic users around the world and has been the recipient of many industry awards. Visit www.wolfram.com for more information.

World Scientific Publishing Company 326
Hackensack, New Jersey
World Scientific is an international, academic publisher with eight offices worldwide. Annually, the company publishes more than 400 books and 100 journals in various fields, including physics, mathematics, and engineering.

XLSolutions Corporation 227, 229
Seattle, Washington
XLSolutions Corporation—also known as the creator of R* (R-Star)—provides predictive analytics software and solutions. XLSolutions Consulting Group has provided statistical and mathematical modeling for data analysis and data mining since 1999. For more information, visit www.xlsolutions-corp.com. R u Ready?

statistics.com 318
Arlington, Virginia
Statistics.com is the leading provider of online professional development courses in statistics. Statistics.com also distributes the Excel add-ins Resampling Stats (resampling) and XLMiner (data mining, neural nets, decision trees, k-nearest neighbor, logistic regression, clustering, Bayes classification, association rules, partitioning, and time series).
Session Tag Descriptions

We expect both theme and applied sessions to draw a diverse audience.

**THEME ✪**
Theme sessions are directly relevant to the 2007 JSM theme, “Statistics: Harnessing the Power of Information.” These sessions highlight presentations and discussions on the role being played by the statistical sciences in the protection and development of people around the globe. Theme sessions are designed to expand the frontiers of statistical thought, emphasize new directions, and promote interdisciplinary collaborations and partnerships.

**APPLIED ●**
Applied sessions have real applications at the heart of their discussions and presentations. Because these sessions are grounded in applications across the many areas of science and engineering, they may involve interdisciplinary work and include presentations by nonstatisticians. Applied sessions range from presentations on state-of-the-art statistical methodology applied to real-world problems to tutorials. All statisticians should find these sessions appealing.

All sessions are open freely to registered attendees, except fee events or where noted.

**Chair(s): Mary Ellen Bock, Purdue University**
The 18th Annual
GERTRUDE COX SCHOLARSHIP RACE

The Caucus for Women in Statistics, in conjunction with the ASA, presents the 18th annual Gertrude Cox Scholarship Race at the Joint Statistical Meetings in Salt Lake City, Utah. All proceeds will benefit the Gertrude M. Cox Scholarship in Statistics.

The Race: There will be two races running concurrently—a competitive 5K race and a 2.5K fun run/walk.

When: Tuesday, July 31, at 7:00 a.m.

Where: Location and logistical information will be posted at the Caucus table at the Salt Palace Convention Center.

How Much: The entry fee is $20.00.

Registration: Those interested in participating are encouraged to register early. You may register during JSM at the hospitality table for the Caucus for Women in Statistics at the Salt Palace Convention Center, near the registration area. All participants must sign a registration form and waiver. T-shirts for all preregistered runners will be distributed at the race. If you have questions, please contact Karen Davis at kedavis@cdc.gov.

REGISTRATION FORM (each participant must complete and sign form)

Name

Address

City, State/Province    ZIP/Postal Code    Phone

SEX: □ M □ F    Age ______    EVENT: □ 5 K Race □ 2.5 K Fun Run/Walk

T-SHIRT SIZE: □ S □ M □ L □ XL

THE FINE PRINT: I understand that running a road race is a potentially hazardous activity. I will not enter and run unless I am medically able and properly trained. I agree to abide by any decision of a race official relative to my ability to complete the run safely. I assume all risks associated with running in this event, including, but not limited to, falls; contact with other participants; and effects of weather, traffic, and course conditions. All such risks are known and appreciated by me. Having read this waiver, knowing these facts, and in consideration of your accepting my entry, I, for myself and anyone entitled to act on my behalf, waive and release the race directors, the race committee, and all sponsors from all claims of liabilities of any kind arising out of my participation in this event, even though such liability may arise as a result of negligence or carelessness on the part of the persons named in this waiver.

Signature

Date    Parent or guardian (if under 18)

Make check payable to The Gertrude Cox Scholarship Fund.
Please return this form along with your check to
Karen Davis, Race Organizer, National Center for Health Statistics, 3311 Toledo Road, Room 3213, Hyattsville, MD 20782.

Providing Tax Data You Can COUNT On...
consider it done

Statistics of Income (SOI) produces data files compiled from samples of tax and information returns filed with the IRS. There’s a wealth of financial information on individuals, business taxpayers, tax-exempt organizations, trusts and estates, and more.

To learn more, be sure to...

- Visit us at Booth 415 for information on SOI papers at JSM 2007
- Check out our career opportunities at the 2007 JSM Career Placement Service

See SOI’s Web site:
www.irs.gov/taxstats

Committee on Publications Meeting (closed)
Chair(s): Edward Wegman, George Mason University

7:00 a.m.–6:00 p.m. CC-252 A, CC-252B
Speaker Work Rooms

7:00 a.m.–8:30 p.m. CC-South Foyer
JSM Main Registration and ASA Membership/Special Assistance Desk

7:00 a.m.–10:30 p.m. CC-South Foyer
Cyber Center

7:30 a.m.–9:30 a.m. GA-Embassy
Committee on Women in Statistics Meeting (closed)
Chair(s): Teri Peterson, Idaho State University

8:00 a.m.–12:00 p.m. GA-Milano
Association of GCRC Statisticians Meeting (closed)
Organizer(s): Robert Oster, The University of Alabama at Birmingham

8:00 a.m.–12:00 p.m. GA-Tuscany
Advisory Committee on Teacher Enhancement Business Meeting
Chair(s): Mike Adams, The University of Alabama

8:00 a.m.–12:00 p.m. CC-Exhibit Hall D
Exhibitor Move In

8:00 a.m.–1:00 p.m. GA-Grenoble
IMS Executive Committee Meeting I (closed)
Organizer(s): Elyse Gustafson, Institute of Mathematical Statistics

9:00 a.m.–12:00 p.m. GA-Ambassador
Council of Sections Governing Board Meeting (closed)
Chair(s): S. Lynne Stokes, Southern Methodist University

9:00 a.m.–5:00 p.m. CC-South Foyer
ASA Marketplace

9:00 a.m.–5:00 p.m. CC-Main Lobby, Level 2
Salt Lake City Visitors Information Center

10:00 a.m.–4:00 p.m. GA-Savoy
Writing Workshop (closed)
Chair(s): Nell Sedransk, National Institute of Statistical Sciences; Keith Crank, American Statistical Association

12:00 p.m.–1:00 p.m. GA-Vienna
Association of GCRC Statisticians Lunch (closed)
Organizer(s): Robert Oster, The University of Alabama at Birmingham

12:00 p.m.–2:00 p.m. GA-Riviera
Statistica Sinica Board Meeting (closed)
Organizer(s): Xiao-li Meng, Harvard University

12:00 p.m.–2:00 p.m. GA-Embassy
Journal of Statistics Education Editorial Board Meeting (closed)
Chair(s): William Notz, The Ohio State University

FIND OUT WHAT YOUR ASSOCIATION IS DOING!

Come to the Open Meeting, meet your officers, hear about the following items, among others, and voice your opinions about the ASA:

➤ 2007 state of the Association – Mary Ellen Bock
➤ Update on ASA finances – Sastry G. Pantula
➤ Update from the Committee on Rewriting the ASA Strategic Plan – Robert Rodriguez
➤ Introduction of Ronald Wasserstein, the incoming ASA executive director – William B. Smith
➤ Summary of 2006 Board task forces – Sallie Keller-McNulty
➤ Questions from the floor – Executive Committee

Please plan to attend and lend your voice to the discussion of important issues affecting the future of the ASA.

You are invited to the JSM

First-Time Attendee

orientation and reception

Salt Palace Convention Center, Ballrooms A-B
Sunday, July 29, 6:00 p.m.-7:30 p.m.

Open to All First-Timers

(Dinner groups will form after the reception.)

AGENDA

- **Introduction**: Tena Katsaounis, President, The Caucus for Women in Statistics
- **Good Advice That I Ignored During My First JSM**: Monnie McGee, Southern Methodist University
- **Reception** (*light hors d’oeuvres to be served*)

Learn more about how to get the most out of your first JSM experience, meet new people, and network.

This reception is sponsored by: ASA, ENAR, IMS, SSC, WNAR, The Caucus for Women in Statistics
3:20 p.m. **Flexible Priors for Covariance Matrices in Gaussian Graphical Models**—  Bala Rajaratnam, Statistical and Applied Mathematical Sciences Institute; Carlos Carvalho, Duke University; Helene M. Massam, York University

3:45 p.m. **Floor Discussion**

2  CC-250 F

The Special Interest Group on Volunteerism: Two Years Out— Invited

Section on Statistical Education, Committee on Scientific Freedom and Human Rights, Section on Government Statistics

Organizer(s): David Banks, Duke University

Chair(s): Susan Hinkins, NORC at the University of Chicago

2:05 p.m. **Update on SIG on Volunteering Efforts**—  Robert Starbuck, Wyeth

2:30 p.m. **Developing Graduate Degrees in Statistics at Universities in Vietnam**—  Alicia Carriquiry, Iowa State University

2:55 p.m. **Discussion of the Special Interest Group on Statistical Volunteerism**—  Jana Asher, Carnegie Mellon University

3:20 p.m. **Promoting Quantitative Literacy for School-Age Children**—  Shail J. Butani, Bureau of Labor Statistics

3:45 p.m. **Floor Discussion**

3  CC-255 C

**Fundamental Statistical Questions Underlying Clinical Trials**— Invited

Biopharmaceutical Section, ENAR, Biometrics Section, WNAR

Organizer(s): Alan Dorfman, Bureau of Labor Statistics

Chair(s): William G. Cumberland, University of California, Los Angeles

2:05 p.m. **Beyond Statistical Methods: Quality of Trial Issues**—  Guoxing Soon, U.S. Food and Drug Administration

2:35 p.m. **On Criteria for a Measure of Statistical Evidence in Clinical Trials: What We Want and What We Don’t**—  Jeffrey D. Blume, Brown University

3:05 p.m. Disc: Alan Dorfman, Bureau of Labor Statistics

3:25 p.m. **Floor Discussion**

4  CC-250 B

**Some New Developments in Statistical Learning**— Invited

Section on Statistical Computing, Section on Bayesian Statistical Science, Section on Teaching Statistics in the Health Sciences, Section on Nonparametric Statistics, Section on Physical and Engineering Sciences

Organizer(s): Ji Zhu, University of Michigan

Chair(s): Sijian Wang, University of Michigan

2:05 p.m. **The Adaptive Lasso and Its Oracle Properties**—  Hui Zou, The University of Minnesota

2:35 p.m. **Robust Support Vector Machines**—  Yufeng Liu, The University of North Carolina at Chapel Hill

3:05 p.m. **Bayesian Ensemble Active Learning**—  Hugh Chipman, Acadia University; Edward I. George, University of Pennsylvania; Robert McCulloch, The University of Chicago Graduate School of Business

3:35 p.m. **Floor Discussion**

5  CC-355 A

**Time Series Studies of Air Pollution and Health**— Invited

WNAR, ENAR, Section on Health Policy Statistics, Section on Risk Analysis, Biometrics Section, Section on Statistics and the Environment

Organizer(s): Paul Switzer, Stanford University

Chair(s): Paul Switzer, Stanford University

2:05 p.m. **Estimating the Distributed Lag between Air Pollution and Hospitalization Using a Bayesian Hierarchical Model**—  Roger Peng, The Johns Hopkins University; Francesca Dominici, The Johns Hopkins University; Leah Welty, Northwestern University

2:35 p.m. **Reassessing the Relationship Between Ozone and Short-Term Mortality in U.S. Urban Communities**—  Richard L. Smith, The University of North Carolina at Chapel Hill; Baowei Xu, The University of North Carolina at Chapel Hill; Allen S. Lefohn, A.S.L. & Associates; Paul Switzer, Stanford University

3:05 p.m. **Looking Through the Time Series Study Lens: Do We See Reality or Fiction?**—  Elizabeth A. Sheppard, University of Washington

3:35 p.m. **Floor Discussion**
6
Themed Session CC-250 C
Threshold Estimation for Functions in Nonparametric and Semiparametric Problems—Invited
Section on Nonparametric Statistics
Organizer(s): Moulinath Banerjee, University of Michigan
Chair(s): Kerby Shedden, University of Michigan
2:05 p.m. Asymptotically Optimal Tests Under Loss of Identifiability in Semiparametric Models—Rui Song, The University of North Carolina at Chapel Hill; Michael Kosorok, The University of North Carolina at Chapel Hill; Jason Fine, University of Wisconsin-Madison
2:30 p.m. Trajectories as Predictors of Univariate Responses—Ian McKeague, Columbia University
2:55 p.m. Multistage Procedures for Change Point Estimation—George Michailidis, The University of Michigan
3:20 p.m. Disc: Moulinath Banerjee, University of Michigan
3:40 p.m. Floor Discussion

7 Medallion Lecture I—Invited CC-155 E
IMS, General Methodology, Biometrics Section
Organizer(s): Tony Cai, University of Pennsylvania
Chair(s): Brani Vidakovic, Georgia Institute of Technology
2:05 p.m. Modeling Genes: Statistical Challenges in Modern Genetics—Peter Donnelly, University of Oxford
3:30 p.m. Floor Discussion

8 Nonlinear and Nonstationary Time Series Analysis—Invited CC-250 E
International Indian Statistical Association
Organizer(s): Soumendra N. Lahiri, Texas A&M University
Chair(s): Soumendra N. Lahiri, Texas A&M University
2:05 p.m. Multiple Local Whittle Estimation in Stationary Systems—Peter M. Robinson, London School of Economics
2:30 p.m. Generalized R-estimators Under Conditional Heteroscedasticity—Kanchan Mukherjee, The University of Liverpool
2:55 p.m. Conditions for the Propagation of Memory Parameter from Durations to Counts and Realized Volatility—Clifford M. Hurvich, New York University

3:20 p.m. Break Detection for a Class of Nonlinear Time Series Models—Richard A. Davis, Colorado State University; Thomas C. M. Lee, The Chinese University of Hong Kong; Gabriel Rodriguez-Yam, Universidad Autonoma Chapingo
3:45 p.m. Floor Discussion

9 Propensity-Score Matching for Observational Studies: Recent Extensions and Refinements—Invited CC-251 A
IMS, Section on Statistics in Epidemiology, Section on Health Policy Statistics, Biometrics Section, WNAR
Organizer(s): Ben B. Hansen, University of Michigan
Chair(s): Jonathan Stroud, University of Pennsylvania
2:05 p.m. Semiparametric Sequential Estimators for Dynamic Causal Models—Michael H. Lechner, University of St. Gallen
2:30 p.m. Propensity Score-Matching Design in Studies with Repeated Measures—Bo Lu, The Ohio State University
2:55 p.m. Matching with Propensity and Prognostic Scores—Ben B. Hansen, University of Michigan
3:40 p.m. Floor Discussion

10 Inference for Multistate Data Under Complex Censoring Structures—Invited CC-260
ENAR, Biometrics Section, Section on Physical and Engineering Sciences
Organizer(s): Somnath Datta, University of Louisville
Chair(s): Susmita Datta, University of Louisville
2:05 p.m. Statistical Analysis of Multivariate Interval-Censored Data—Jianguo Sun, University of Missouri-Columbia; Manhua Chen, University of Missouri-Columbia; Xingwei Tong, Academia of Science
2:30 p.m. Analysis of Longitudinal and Response/Failure Time Data from an Observational Study with Missing Observations—Dianne M. Finkelstein, Harvard/MGH; Natasa Rajicic, Pfizer Inc.; David A. Schoenfeld, MGH/Harvard
2:55 p.m. Multiply Robust Higher-Order U-Statistics Estimators for Continuous-Time Multistate Data Structures—James Robins, Harvard School of Public Health
General Program Schedule

3:20 p.m.  Disc: Somnath Datta, University of Louisville
3:40 p.m.  Floor Discussion

11  CC-155 B
● ▲ Alzheimer’s Disease Research in Utah:
Analysis Methods for Early Detection,
Epidemiology, and Clinical Trials—Invited
ASA, Utah Chapter, Council of Chapters, ENAR, Section on Statistics in
Epidemiology, Biometrics Section
Organizer(s): Suzanne Hendrix, Myriad Pharmaceuticals
Chair(s): C. Shane Reese, Brigham Young University
2:05 p.m.  Cognitive Change as a Biomarker in the Early
Detection of Alzheimer’s Disease—❖ Gordon J.
Chelune, The University of Utah
2:35 p.m.  Analyzing Repeated Neuropsychiatric, Cognitive,
and Functional Measures in a Population-Based
Study of Dementia—❖ Chris Corcoran, Utah
State University; Carl F. Pieper, Duke University;
Peter Zandi, The Johns Hopkins University
3:05 p.m.  Responder versus Means Analysis: Illustrated with
Data from a Phase 2 Study of Tarenflurbil (MPC-
7869) in Alzheimer’s Disease (AD)—❖ Kenton
Zavitz, Myriad Pharmaceuticals; Mark Laughlin,
Myriad Pharmaceuticals; Edward Swabb, Myriad
Pharmaceuticals
3:35 p.m.  Floor Discussion

12  CC-355 B
● ▲ Measuring and Improving Data Quality:
A Prerequisite to Harnessing the Power of
Information—Invited
Social Statistics Section, Section on Government Statistics, Section on
Survey Research Methods
Organizer(s): Nancy Gordon, U.S. Census Bureau
Chair(s): Nancy Gordon, U.S. Census Bureau
2:05 p.m.  Assessing the Effectiveness of Using Panel
Respondent Mode Preferences—❖ Thomas B.
Hoffer, NORC at the University of Chicago; Karen
Grigorian, NORC at the University of Chicago;
Ron Fecso, National Science Foundation
2:30 p.m.  Look and Listen, But Don’t Stop: Interviewers
and Data Quality in the 2007 SCF—❖ Arthur B.
Kennickell, Federal Reserve Board
2:55 p.m.  Survey Quality and Quality Metrics: An Economic
Approach—❖ Julia Lane, NORC at the University
of Chicago; Suzanne Bard, NORC at the
University of Chicago; Judith Petty, NORC at the
University of Chicago
3:20 p.m.  Disc: Cheryl R. Landman, U.S. Census Bureau
3:40 p.m.  Floor Discussion

Topic-Contributed Sessions
2:00 p.m.–3:50 p.m.

13  CC-355 B
● 2007 Government Statistics, Social Statistics,
and Survey Research Methods Student Paper
Awards Session—Topic-Contributed
Section on Survey Research Methods, Social Statistics Section, Section on
Government Statistics, SSC
Organizer(s): Roberta Sangster, Bureau of Labor Statistics
Chair(s): Steven Heeringa, Institute for Social Research
2:05 p.m.  Small-Area Estimation in Multivariate Surveys—
❖ Hukum Chandra, University of Southampton;
Ray Chambers, University of Wollongong
2:25 p.m.  Nonparametric Modeling of the Second Order
Structure of Processes with Time-Varying
Memory—❖ Georg Goerg, Vienna University of
Technology; Dana Draghicescu, Hunter College
2:45 p.m.  Cosponsorship in the U.S. Senate: A Mixed
Effects Approach to Detecting the Subtle Influence
of Social Relational Factors on Legislative
Behavior—❖ Justin Gross, Carnegie Mellon
University; Stephen Fienberg, Carnegie Mellon
University; Cosma Shalizi, Carnegie Mellon
University; David Krackhardt, Carnegie Mellon
University
3:05 p.m.  Imputing Missing Data in the FBI’s Uniform Crime
Reports—❖ Clint Roberts, The Ohio State
University; Elizabeth A. Stasny, The Ohio State
University; Michael D. Maltz, The Ohio State
University
3:25 p.m.  Using the Multiple Imputation Technique To Correct
for Measurement Error and Statistical Disclosure
Control in Sensitive Count Data in a National
Survey—❖ Mandi Yu, University of Michigan
3:45 p.m.  Floor Discussion
General Program Schedule

Thurs-Sun

14

Efficient Designs in Drug Development—Topic-Contributed

Biopharmaceutical Section, Biometrics Section, ENAR

Organizer(s): Michael Smith, Pfizer Inc.

2:05 p.m. Bayesian Forecasting of Multicenter Enrollment—

Byron Jones, Pfizer Inc.

2:25 p.m. A Bayesian Design and Analysis for Dose-Response Using Informative Prior Information—

Michael Smith, Pfizer Inc.; Scott Marshall, Pfizer Inc.

2:45 p.m. Model-Based Trial Design in Depression Using Bayesian Monitoring and Bootstrap Trial Simulation—

Roberto Gomeni, GlaxoSmithKline

3:05 p.m. Accounting for Patient Heterogeneity in Phase II Clinical Trials—

J. Kyle Wathen, The University of Texas M. D. Anderson Cancer Center; Peter F. Thall, The University of Texas M. D. Anderson Cancer Center; John D. Cook, The University of Texas M. D. Anderson Cancer Center

3:45 p.m. Floor Discussion

15

Novel Analyses of Time-To-Event Data—Topic-Contributed

Biopharmaceutical Section, ENAR, Section on Risk Analysis

Organizer(s): Devan V. Mehrotra, Merck & Co., Inc.

Chair(s): Donna Kowalski, Astellas Pharma US

2:05 p.m. Extensions of Cure Models for Clustered Time-to-Event Data—

Jeremy Taylor, University of Michigan; Yingwei Peng, Queen's University

2:25 p.m. Constructing Approximate Confidence Bounds for the True Survival Curve Using the Kaplan-Meier Survival Function by Adding an Imaginary Failure or Eternal Survivor—

Craig B. Borkowf, Centers for Disease Control and Prevention (CDC)

2:45 p.m. A Two-Stage Procedure for Comparing Hazard Rate Functions—

Peihua Qiu, The University of Minnesota

3:05 p.m. Improved Hazard Ratio Estimation in Small Time-to-Event Trials—

Devan V. Mehrotra, Merck & Co., Inc.; Arthur Roth, Pfizer Inc.

3:25 p.m. Disc: David P. Harrington, Dana-Farber Cancer Institute

3:45 p.m. Floor Discussion

16

Design and Inference in Multinational Trials—Topic-Contributed

ENAR, Biometrics Section, Biopharmaceutical Section, WNAR

Organizer(s): Yoko Tanaka, Eli Lilly and Company

Chair(s): Ramon Littell, University of Florida

2:05 p.m. Design of Multinational Study for Global Development—

Yoshiharu Horie, Nippon Boehringer Ingelheim Co. Ltd.; Masahiro Takeuchi, Kitasato University

2:25 p.m. Sample Size Determination of Japanese Patients for Multiregional Clinical Trial in Oncology—

Risa Sekiguchi, Eli Lilly and Company; Sachio Ogawa, Eli Lilly and Company; Hiroyuki Uesaka, Eli Lilly and Company

2:45 p.m. Issues in Design of Multiregional Trials—

Yoichi Li, Pfizer Japan Inc.; Osamu Komiyama, Pfizer Japan Inc.; Kazuhiro Kuribayashi, Pfizer Japan Inc.

3:05 p.m. Issues in Conducting Multiregional Trial: Experience in the PMDA Consultation Meetings—

Yuki Ando, Pharmaceuticals and Medical Devices Agency

3:25 p.m. Disc: Henry Hsu, U.S. Food and Drug Administration

3:45 p.m. Floor Discussion

17

Sufficient Dimension Reduction and High-Dimensional Data—Topic-Contributed

IMS, Section on Nonparametric Statistics

Organizer(s): Lexin Li, North Carolina State University

Chair(s): Wenbin Lu, North Carolina State University

2:05 p.m. Generalized K-Means Inverse Regression Estimation—

Xuerong Wen, University of Missouri-Rolla

2:25 p.m. A Novel Moment-Based Sufficient Dimension Reduction Approach in Multivariate Regression—

Jae Keun Yoo, University of Louisville

2:45 p.m. Principal Components for Regression: A Conditional Point of View—

Liliana Forzani, The University of Minnesota

3:05 p.m. Dimension Reduction in Time Series—

Jin-Hong Park, University of Georgia

3:25 p.m. Model-Free Multivariate Reduced-Rank Model Regression with Categorical Predictor—

Messen C. Setodji, RAND Corporation; Lexin Li, North Carolina State University

3:45 p.m. Floor Discussion

<td></td>
<td>Bayesian Modeling of Longitudinal or Event-Time Data Subject to Nonresponse or Censoring— Topic-Contributed</td>
<td>Section on Bayesian Statistical Science, ENAR, Section on Health Policy Statistics</td>
<td>Jamie Bigelow, Duke University</td>
<td>2:05 p.m.</td>
</tr>
<tr>
<td></td>
<td>Bayesian Variable Selection in Linear Mixed-Effects Models for Longitudinal Data with Missing Values—</td>
<td>Xiaowei Yang, University of California, Davis</td>
<td></td>
<td>2:05 p.m.</td>
</tr>
<tr>
<td></td>
<td>Bayesian Variable Selection for Analyzing Longitudinal Substance Abuse Treatment Data Subject to Informative Censoring—</td>
<td>Susan Paddock, RAND Corporation</td>
<td></td>
<td>2:25 p.m.</td>
</tr>
<tr>
<td></td>
<td>Approximate Bayesian Model Averaging for Latent Class Pattern Mixture Models with an Unknown Number of Classes—</td>
<td>Jason Roy, Geisinger</td>
<td></td>
<td>2:45 p.m.</td>
</tr>
<tr>
<td></td>
<td>Multivariate Developmental Trajectory Models To Identify Longitudinal Patterns of Disability in Seniors—</td>
<td>Jason Connor, Berry Consultants</td>
<td></td>
<td>3:05 p.m.</td>
</tr>
<tr>
<td></td>
<td>Analysis of Immunohistochemical Data Using Measurement Error Models—</td>
<td>Ronglai Shen, University of Michigan; Debashis Ghosh, University of Michigan; Jeremy Taylor, University of Michigan</td>
<td></td>
<td>3:25 p.m.</td>
</tr>
</tbody>
</table>

### Conference Locations

- CC-Salt Palace Convention Center
- GA-The Grand America Hotel
Topic-Contributed Panels 2:00 p.m.–3:50 p.m.

21 CC-251 E

Identifying and Overcoming Barriers to Teaching a Reformed Introductory Course—Topic-Contributed Section on Statistical Education, Section on Teaching Statistics in the Health Sciences

Organizer(s): Doug Zahn, Zahn and Associates
Chair(s): Doug Zahn, Zahn and Associates
Panelists:
- Marjorie Bond, Monmouth College
- Christine Kohnen, Saint Olaf College
- Karen Kinard, Tallahassee Community College
- Mary Parker, Austin Community College

3:45 p.m. Floor Discussion

Contributed Sessions 2:00 p.m.–3:50 p.m.

22 CC-254 C

Bayesian Time Series and Binary Data—Contributed Section on Bayesian Statistical Science
Chair(s): Stephen B. Cohen, Agency for Healthcare Research and Quality

2:05 p.m. Mixtures of State Space Models for Time Series with Structural Breaks—Ori Rosen, University of Texas at El Paso; Sally Wood, University of New South Wales; Robert Kohn, University of New South Wales

2:20 p.m. Bayesian Analysis and Applications of a Generalized Threshold Autoregressive Model—Peng Sun, Merck & Co., Inc.

2:35 p.m. Bayesian Clustering of Time Series with Change Points—Garrick Wallstrom, University of Pittsburgh; William Hogan, University of Pittsburgh

2:50 p.m. Estimating Kappa Coefficient and Tetrachoric Correlation for Clustered Binary Data—Xiao Zhang, The University of Alabama at Birmingham; Gary Cutter, The University of Alabama at Birmingham

3:05 p.m. Selected Bayesian Inference for Correlated Binary Data—Patricia Bahnsen, Stephen F. Austin State University

3:20 p.m. Bayesian Inference in 2 by 2 Tables—Yong Chen, Johns Hopkins Bloomberg School of Public Health; Sining Chen, Johns Hopkins Bloomberg School of Public Health; Haitao Chu, Johns Hopkins Bloomberg School of Public Health

3:35 p.m. Classification with Spectroscopic Data Using Bayesian Variable Selection—Hongxiao Zhu, Rice University; Dennis D. Cox, Rice University

23 CC-255 B

Recent Advances in Microarray Data Analysis IV—Contributed Biometrics Section
Chair(s): Veera Baladandayuthapani, The University of Texas M. D. Anderson Cancer Center

2:05 p.m. A Statistical Method for Selecting Differentially Expressed Genes—Zhao Chen, Florida Gulf Coast University

2:20 p.m. Inferring Genomic Copy Number from CGH Arrays—Stephen Erickson, The University of Alabama at Birmingham

2:35 p.m. A Ridge Penalized Principal-Components Approach Based on Heritability for High-Dimensional Data—Yuanjia Wang, Columbia University; Yixin Fang, Columbia University; Man Jin, Columbia University

2:50 p.m. Robustness of Cancer Risk Prediction Using Microarrays—Chiang-Ching Huang, Northwestern University; Irene Helenowski, Northwestern University

3:05 p.m. Incorporating Prior Knowledge of Predictors into Penalized Classifiers with Multiple Penalty Terms—Feng Tai, The University of Minnesota; Wei Pan, The University of Minnesota

3:20 p.m. Optimal Microarray Designs for cDNA Microarray Experiments—Tathagata Bandyopadhyay, Indian Institute of Management Ahmedabad

3:35 p.m. An Integrated Approach Using Nonparametric Local Correlation to Identify Critical Pathways in Disease—Yian Chen, Texas A&M University; Marina Vannucci, Texas A&M University

24 CC-255 A

Recent Advances in Longitudinal Data Analysis—Contributed Biometrics Section, Biopharmaceutical Section
Chair(s): Kai Fun Yu, National Institutes of Health

2:05 p.m. Self-Reported Behavior of High-Risk HIV+ Youth: Random Effects Models for Multivariate Longitudinal Discrete Data—Lily Altstein, University of California, Los Angeles
## General Program Schedule

<td>Hierarchical Dependence in Meta-Analysis—</td>
<td>John R. Stevens, Utah State University; Alan M. Taylor, Brigham Young University-Idaho</td>
<td>GA-The Grand America Hotel</td>
</tr>
</tbody>
</table>
2:20 p.m. Sequential Hypothesis Testing in Sensor Networks— Yajun Mei, Georgia Institute of Technology
2:35 p.m. Modified Holm’s Critical Values Using Correlation— Zijiang Yang, Temple University; Sanat Sarkar, Temple University
2:50 p.m. On the Probability of Correct Selection for Large k Populations with Application to Microarray Data— Jason Wilson, University of California, Riverside; Xinping Cui, University of California, Riverside
3:05 p.m. Alpha-Investing: A New Multiple Hypothesis Testing Procedure— Robert Stine, University of Pennsylvania; Dean Foster, University of Pennsylvania
3:20 p.m. Statistics on High-Dimensional Data Analysis— Yingli Qin, Iowa State University; Song Xi Chen, Iowa State University
3:35 p.m. Pseudo-ROC: Method Comparisons in the Absence of a ‘Gold Standard’— Richard Bourgon, European Bioinformatics Institute
2:05 p.m. Relationship Between Competitiveness of Colleges and Levels of Tobacco Use— Joost Bottenbley, The Johns Hopkins University; Yasmin H. Said, George Mason University; Edward Wegman, George Mason University; Samer Ellahham, Innovative Medical Institute/Paragon Cardiovascular Foundation; David Anderson
2:20 p.m. Restriction of Trans Fatty Acids in Washington, DC Metropolitan Area: Health Benefits and Economic Impact— Joost Bottenbley, The Johns Hopkins University; Samer Ellahham, Innovative Medical Institute/Paragon Cardiovascular Foundation; Yasmin H. Said, George Mason University; Edward Wegman, George Mason University; Malda Bashi, Paragon Cardiovascular Foundation
2:35 p.m. Price Indexes with a Health Insurance Component— Ralph Bradley, Bureau of Labor Statistics
2:50 p.m. Multiple Imputation of the Euroqol EQ-5D: Testing Different Approaches Using IVEWare— Robert Gerzoff, Centers for Disease Control and Prevention; Theodore J. Thompson, Centers for Disease Control and Prevention
3:05 p.m. A Choice of Prediction Rules in Logistic Regression Models— Melvin Ott
3:20 p.m. Nonparametric Confidence Intervals for the Mean of a Right-Skewed Distribution— Kenny Shum, The Johns Hopkins University; Scott Zeger, The Johns Hopkins University
3:35 p.m. Floor Discussion
2:05 p.m. A New Statistical Approach for the Analysis of Uncertain Systems— Xinjia Chen, Louisiana State University; Kemin Zhou, Louisiana State University; Jorge Aravena, Louisiana State University
2:20 p.m. The Efficiency of Ridge Regression Estimators with Respect to Zellner’s Balanced Loss Function— Marvin Gruber, Rochester Institute of Technology
2:35 p.m. Identification of Dispersion Effects in Replicated Experiments— Cheryl Dingus, Battelle; Angela Dean, The Ohio State University; Bruce Ankenman, Northwestern University
2:50 p.m. A Sequential Methodology for Change Point Estimation— Yan Lan, University of Michigan; Moulinath Banerjee, University of Michigan; George Michailidis, The University of Michigan
3:05 p.m. Inference for Multipiecewise Regression Using the Bootstrap— Trevor Craney, Sikorsky
3:20 p.m. Generalized Confidence Intervals for Proportion of Conformance— Paul Patterson, USDA Forest Service
3:35 p.m. Analysis of Probability of Detection and Probability of Alarm on Sonic IR Inspection Data Using the Mixed Effects Model and Bootstrapping— Chunwang Gao, Iowa State University; William Meeker, Iowa State University; Donna Mayton, SAIC
General Program Schedule

30 CC-251 B
● Thematic Session
✪ Applied Session
❖ Presenter

Section on Quality and Productivity
Chair(s): William Guthrie, National Institute of Standards and Technology

2:05 p.m. Multivariate Process Control for Improved Detection of Changes in Process Location—
❖ Amitava Mitra, Auburn University

2:20 p.m. Monitoring the Slopes of Linear Profiles—
❖ Junjia Zhu, The Pennsylvania State University

2:35 p.m. Monitoring of Hazard Rates for Dynamically Changing Observations—
❖ Emmanuel Yashchin, IBM T.J. Watson Research Center

2:50 p.m. Benefits of Integrating Operational Profiles with Classical Acceptance Sampling in the 2010 U.S. Census—
❖ Thomas George, Evolver, Inc.

3:05 p.m. Sampling Procedures for Extending the Use of the Fishbone Diagram—
❖ Frank Matejcik, South Dakota School of Mines

3:20 p.m. Floor Discussion

32 CC-250 D
● Water-Related Issues and Methodology—Contributed

Section on Statistics and the Environment, Biometrics Section
Chair(s): Annie Chu, University of California, Los Angeles

2:05 p.m. Functional Linear Models for Daily and Yearly Streamflow Measures—
❖ Mark Greenwood, Montana State University; Johnnie N. Moore, University of Montana; Joel T. Harper, University of Montana

2:20 p.m. Modeling Shark Bycatch: The Zero-Inflated Negative Binomial Regression Model with Smoothing—
❖ Mihoko Minami, Institute of Statistical Mathematics

2:35 p.m. A Distance-Based Classifier with Application to Microbial Source Tracking—
❖ Jayson Wilbur, Worcester Polytechnic Institute

3:05 p.m. Spatial Modeling for Groundwater Arsenic Levels in North Carolina—
❖ Dohyeong Kim, Duke University; Marie Lynn Miranda, Duke University; Joshua Tootoo, Duke University; Alan E. Gelfand, Duke University

3:20 p.m. Change Point Analysis for Water Pressure Data—
❖ Snehalata Huzurbazar, University of Wyoming

3:35 p.m. Weibull Prediction Limits with Retesting—
❖ Kirk Cameron, MacStat Consulting, Ltd.

31 CC-251 F

Interesting Statistical Applications—Contributed
Section on Statistical Education, General Methodology, Section on Teaching Statistics in the Health Sciences
Chair(s): James Cochran, Louisiana Tech University

2:05 p.m. Regression Through the Origin: Models and Methods—
❖ Patrick Johnston, Children’s Hospital Boston

2:20 p.m. Testing the Score Invariance of State Performance Tests Over Time—
❖ Jiahe Qian, Educational Testing Service

2:35 p.m. Inference for Normal Mixture Model, Univariate or Multivariate, in Both Mean, and Variance—
❖ Xianming Tan, Queens University; Jiahua Chen, University of British Columbia

2:50 p.m. Measurement Error in Factor Analysis: The Question of Structural Validity—
❖ Michael K. Lauritzen, Brigham Young University; Landon Poppleton, Brigham Young University; Mitchell Harris, Brigham Young University; Naomi Hunsaker, Brigham Young University; Robert Bubb, Brigham Young University; Bruce Brown, Brigham Young University

3:05 p.m. The Central Limit Theorem and Structural Validity in Factor Analysis—
❖ Landon Poppleton, Brigham Young University; Mitchell Harris, Brigham Young University; Michael K. Lauritzen, Brigham Young University; Robert Bubb, Brigham Young University; Bruce Brown, Brigham Young University

3:20 p.m. Determining a Minimum Number of Observations in Factor Analytic Studies—
❖ Robert Bubb, Brigham Young University; Bruce Brown, Brigham Young University

3:35 p.m. A Meta-Analysis of the Content and Effectiveness of Training Programs for Federal and State Transportation Employees—
❖ John Aleong, University of Vermont; Chandra Aleong, Delaware State University
33 CC-258
Modeling and Estimation in Environmental and Occupational Health—Contributed
Section on Statistics in Epidemiology, Section on Health Policy Statistics
Chair(s): Dirk Moore, University of Medicine and Dentistry of New Jersey

2:05 p.m. **A Comparative Analysis of the Chronic Effects of Fine Particulate Matter**—❖ Sorina Eftim, The Johns Hopkins University; Holly Janes, The Johns Hopkins University; Aidan McDermott, The Johns Hopkins University; Jonathan Samet, The Johns Hopkins University; Francesca Dominici, The Johns Hopkins University

2:20 p.m. **The Effect of PM2.5 on Hospital Admissions Rates by Season and Region**—❖ Keita Ebisu, Yale University; Michelle Bell, Yale University; Roger Peng, The Johns Hopkins University; Francesca Dominici, The Johns Hopkins University

2:35 p.m. **Statistical Issues in Health Effects of Air Pollution**—❖ Donna Stroup, Klemm Analysis Group, Inc.; Rebecca Klemm, Klemm Analysis Group, Inc.

2:50 p.m. **Exposure-Response Assessment of Airborne Indoor Allergen Immunoassay**—❖ Juan Liang, University of Cincinnati; Linda Levin, University of Cincinnati; Tiina Reponen, University of Cincinnati; Grace LeMasters, University of Cincinnati; David Bernstein, University of Cincinnati; Rolanda Olds, University of Cincinnati; Zana Lummus, University of Cincinnati

3:05 p.m. **Correcting for Shared Measurement Error in Complex Dosimetry Systems**—❖ Terri K. Johnson, University of Southern California; Daniel Stram, University of Southern California

3:20 p.m. **The Comparison of Fitted Nonlinear Exposure-Response Relationships in Cox Models Using Smoothing Methods Through Simulations**—❖ Usha Govindarajulu, Yale University; Betty Malloy, American University; Bhaswati Ganguli, University of Calcutta; Donna Spiegelman, Harvard School of Public Health; Ellen Eisen, Harvard School of Public Health

3:35 p.m. **Recovering the Estimated Slope of an Unobservable Predictor in a Simple Regression**—❖ Wenyaw Chan, The University of Texas at Houston; Hung-Wen Yeh, The University of Kansas Medical Center; Elaine Symanski, University of Texas at Houston

|              | ❖ Jonathan Stroud, University of Pennsylvania; Jonathan Weinberg, University of Pennsylvania; Lawrence D. Brown, University of Pennsylvania |
4:30 p.m.  **Interday Forecasting and Intraday Updating of Call Center Arrivals**— Haipeng Shen, The University of North Carolina at Chapel Hill; Jianhua Z. Huang, Texas A&M University

4:55 p.m.  **Bayesian Modeling and Forecasting of Intraday Electricity Load and Spot Prices**— Michael S. Smith, University of Melbourne

5:20 p.m.  Disc: J. Stephen Marron, The University of North Carolina at Chapel Hill

5:45 p.m.  **Floor Discussion**

---

39  CC-355 B

**Design and Analysis for Genome-Wide Association Studies**— Invited

ENAR, Section on Statistics in Epidemiology, Biometrics Section, WNAR

Organizer(s): Colin O. Wu, National Heart, Lung, and Blood Institute
Chair(s): Jungnam Joo, National Heart, Lung, and Blood Institute

4:05 p.m.  **Statistical Issues Arising from Analysis of Genome-Wide Case-Control Association Studies**— Gang Zheng, National Heart, Lung, and Blood Institute; Jungnam Joo, National Heart, Lung, and Blood Institute; Colin O. Wu, National Heart, Lung, and Blood Institute; Nancy L. Geller, National Heart, Lung, and Blood Institute

4:30 p.m.  **Multistage Sampling for Genetic Studies**— Robert C. Elston, Case Western Reserve University

4:55 p.m.  **Testing Strategies for Genome-Wide Association Studies: Using the Same Dataset for Screening and Replication**— Christoph Lange, Harvard School of Public Health

5:20 p.m.  **Interactions in Whole-Genome Association Studies**— Josephine Hoh, Yale University

5:40 p.m.  **Floor Discussion**

---

40  CC-155 F

**First Hitting Time Models and Threshold Regression**— Invited

SSC, Biometrics Section

Organizer(s): George A. Whitmore, McGill University
Chair(s): George A. Whitmore, McGill University

4:05 p.m.  **What Hides Behind the Data?**— Odd O. Aalen, University of Oslo

4:35 p.m.  **A Class of Simple Lifetime Regression Models Resulting from First-Hitting Times**— Thierry Duchesne, Laval University

---

5:05 p.m.  **Longitudinal Data in Threshold Regression: Implementation and Relation to Cox Regression with Time-Varying Covariates**— Mei-Ling Ting Lee, The Ohio State University; George A. Whitmore, McGill University

5:35 p.m.  **Floor Discussion**

---

41  CC-255 D

**The Role of Statistical Standards in Federal Surveys**— Invited

Section on Survey Research Methods, Section on Government Statistics, Social Statistics Section

Organizer(s): Pamela D. McGovern, U.S. Census Bureau
Chair(s): Jennifer Madans, National Center for Health Statistics

4:05 p.m.  **Evaluation of Prospective Costs and Benefits of Standards for Statistical Programs**— John L. Eltinge, Bureau of Labor Statistics

4:30 p.m.  **Developing and Implementing Data Quality Standards at the U.S. Census Bureau**— Pamela D. McGovern, U.S. Census Bureau; David C. Whitford, U.S. Census Bureau; John M. Bushery, U.S. Census Bureau

4:55 p.m.  **Lessons Learned Using Statistical Standards To Improve/Ensure Data Quality**— Marilyn Seastrom, National Center for Education Statistics

5:20 p.m.  Disc: Brian Harris-Kojetin, Office of Management and Budget

5:40 p.m.  **Floor Discussion**

---

42  CC-250 F

**Collaboration Between Academia, Industry, and Government in Statistical Sciences**— Invited

SPAIG Committee, Section on Statisticians in Defense and National Security, ENAR

Organizer(s): Morteza Marzjarani, Saginaw Valley State University
Chair(s): George Williams, Amgen Inc.

4:05 p.m.  **The 2007 SPAIG Salary Survey**— Michael D. Larsen, Iowa State University; Dianne Anderson, Iowa State University; Janice Larson, Iowa State University

4:30 p.m.  **Student Recruitment Database**— Robert G. Wilkinson, The Lubrizol Corporation

4:55 p.m.  **The WPI-NCHS Partnership**— Balgobin Nandram, Worcester Polytechnic Institute

5:20 p.m. Disc: John Gardenier, Retired
5:40 p.m. Floor Discussion

48 CC-251 B
● Design- and Model-Based Sampling and Inference—Invited
Section on Statistics and the Environment, Section on Statistics in Epidemiology, Biometrics Section, General Methodology, Section on Survey Research Methods
Organizer(s): Ronald E. McRoberts, USDA Forest Service
Chair(s): Gretchen G. Moisen, USDA Forest Service
4:05 p.m. Design-Based, Model-Based, and Model-Assisted Sampling, and Inference in Natural Resources—
Mary Christman, University of Florida
4:30 p.m. Optimal Spatial Sampling: Probability-Based or Model-Based?—
Don L. Stevens, Jr., Oregon State University
4:55 p.m. Design-Based and Model-Based Issues in Natural Resource Inventories—
Ronald E. McRoberts, USDA Forest Service
5:20 p.m. Disc: Timothy Gregoire, Yale University
5:40 p.m. Floor Discussion

49 CC-259
● Missing Information in Health-Related Quality-of-Life Data—Invited
Section on Health Policy Statistics, ENAR, Biometrics Section, WNAR
Organizer(s): Shannon E. Allen, Merck & Co., Inc.
Chair(s): Shannon E. Allen, Merck & Co., Inc.
4:05 p.m. Bivariate Normal Frailty Models for Multiple QOL Outcomes—
Andrea B. Troxel, University of Pennsylvania; Denise A. Esserman, The University of North Carolina at Chapel Hill
4:35 p.m. The Analysis of Questionnaire Submission Rates in Longitudinal HRQOL Assessment—
Stephanie R. Land, University of Pittsburgh; Marcie W. Ritter, University of Pittsburgh; Sarah Haile, University of Pittsburgh
4:55 p.m. The Value of Ancillary Data in Longitudinal Studies of Health-Related Quality of Life with Informative Dropout—
Diane Fairclough, University of Colorado at Denver and Health Services Center; Mark Jaros, University of Colorado at Denver and Health Services Center
5:35 p.m. Floor Discussion

Invited Panels 4:00 p.m.–5:50 p.m.

50 CC-251 E
Issues in Conducting Experiments in Statistical Education—Invited
Section on Statistical Education, Section on Teaching Statistics in the Health Sciences
Organizer(s): Patti Collings, Brigham Young University
Chair(s): Patti Collings, Brigham Young University
Panelists:
• William Harkness, The Pennsylvania State University
• G. Bruce Schaalje, Brigham Young University
• Dennis K. Pearl, The Ohio State University
• John P. Holcomb, Cleveland State University
5:45 p.m. Floor Discussion

Topic-Contributed Sessions 4:00 p.m.–5:50 p.m.

51 CC-355 E
● Ethnic Comparisons in Global Health Research—Topic-Contributed
Biopharmaceutical Section, Section on Health Policy Statistics
Organizer(s): Kyoungah See, Eli Lilly and Company
Chair(s): Yoko Tanaka, Eli Lilly and Company
4:05 p.m. Assessment of Similarity in Dose Responses Between Two Ethnic Populations for Drug Development: A Resampling Approach—
Kyoungah See, Eli Lilly and Company
4:25 p.m. The Application of Adaptive Design in R&D in Japan from a Statistical Point of View—
Hajime Uno, Kitasato University; Masahiro Takeuchi, Kitasato University; Fumiaki Takahashi, Kitasato University
4:45 p.m. A Bayesian Approach to Evaluation of Bridging Evidence—
Hsiao-Hui Tsou, National Health Research Institutes; Chín-Fu Hsiao, National Health Research Institutes; Yu-Yi Hsu, Iowa State University; Jen-pei Liu, National Taiwan University
5:05 p.m. Minority Differences in Cancer Survival on Cooperative Group Clinical Trials—
Beow Yong Yeap, Massachusetts General Hospital/Harvard Medical School; Marvin Zelen, Harvard School of Public Health
5:25 p.m. Floor Discussion
General Program Schedule

52 CC-250 C
✪ Ranked Set Sampling II—Topic-Contributed
Section on Nonparametric Statistics, Section on Survey Research Methods
Organizer(s): Omer Ozturk, The Ohio State University
Chair(s): Omer Ozturk, The Ohio State University

4:05 p.m. Optimal Sign Test for One Sample Bivariate Location Model Using an Alternative Bivariate Ranked Set Sample— Hani Samawi, Georgia Southern University
4:25 p.m. Optimal Allocation for Unbalanced Stratified Ranked Set Sample— Chris Sroka, The Ohio State University; Elizabeth A. Stasny, The Ohio State University; Douglas Wolfe, The Ohio State University
4:45 p.m. Order-Restricted Randomized Designs for Linear Models Using L1 Norm— Shannon Markiewicz, The Ohio State University; Omer Ozturk, The Ohio State University
5:05 p.m. Optimal Allocation in the Presence of Missing Data— Jessica Kohlschmidt, The Ohio State University; Elizabeth A. Stasny, The Ohio State University; Douglas Wolfe, The Ohio State University
5:25 p.m. Rejective Sampling and Conditional Tests from Biased Samples for the Equality of Two Distributions— Qing Kang, North Dakota State University; Paul I. Nelson, Kansas State University
5:45 p.m. Floor Discussion

53 CC-251 C
❖ Consumer Product Risk—Topic-Contributed
Section on Risk Analysis
Organizer(s): Rose Ray, Exponent, Inc.
Chair(s): Rose Ray, Exponent, Inc.

4:05 p.m. Sex Differences: Rare Traffic Fatalities Support Nature over Nurture— Leonard Evans, Science Serving Society

54 CC-254 B
● Analyzing Time Series Data with Time-Varying Frequencies—Topic-Contributed
Section on Physical and Engineering Sciences, Section on Statistics and the Environment
Organizer(s): Wayne Woodward, Southern Methodist University
Chair(s): Henry L. Gray, Southern Methodist University

4:05 p.m. The Application of the Kalman Filter to Nonstationary Time Series Through Time Deformation— Zhu Wang, Fred Hutchinson Cancer Research Center
4:25 p.m. Time-Frequency Analysis: G(lambda)-stationary Processes— Huiping Jiang, Columbia University; Henry L. Gray, Southern Methodist University; Wayne Woodward, Southern Methodist University
4:45 p.m. Filtering Analysis for Nonstationary Time Series by Time Deformation— Mengyuan Xu, Southern Methodist University
5:05 p.m. Generalization and Applications of Linear Chirp Stationary Processes— Stephen Robertson, Southern Methodist University
5:25 p.m. Time Transformation Methods for Analyzing Data with Time-Varying Frequencies, with Applications— Wayne Woodward, Southern Methodist University; Henry L. Gray, Southern Methodist University
5:45 p.m. Floor Discussion

55 CC-255 A
❖ Spatial Statistics: Methods and Applications—Topic-Contributed
IMS, Section on Statistical Graphics, Section on Statistics and the Environment
Organizer(s): Zepu Zhang, The University of Chicago
Chair(s): Li Chen, The University of Chicago

4:05 p.m. Exploratory Spatial Data Analysis Using APLE Statistics— Hongfei Li, The Ohio State University; Catherine A. Calder, The Ohio State University; Noel Cressie, The Ohio State University
4:25 p.m.  **Statistical Trend Detection of a Global Change Signal in Regional Climate**—❖ Airong Cai, University of Illinois at Chicago; Katharine Hayhoe, Texas Tech University; George Tiao, The University of Chicago; Donald Wuebbles, University of Illinois at Urbana-Champaign

4:45 p.m.  **Detection of the Significance of Cool Spot Clusters with Application to the Indiana Colorectal Cancer Study**—❖ Tonglin Zhang, Purdue University

5:05 p.m.  **Spatial Statistical Analysis of Doctors’ Prescription Amounts by Region**—❖ Lei Kang, The Ohio State University; Noel Cressie, The Ohio State University; Desheng Liu, The Ohio State University

5:25 p.m.  **Mis-specified Maximum Likelihood Estimates and Spatial Error Models**—❖ Jiehua Chen, Stanford University; Paul Switzer, Stanford University

5:45 p.m.  **Floor Discussion**

56  **Some Recent Advances in High-Dimensional Data Modeling**—Topic-Contributed

4:05 p.m.  **Local Multidimensional Scaling for Nonlinear Dimension Reduction, Graph Layout, and Approximation Analysis**—❖ Lisha Chen, Yale University; Andreas Buja, University of Pennsylvania

4:25 p.m.  **Model-Based Protein Summaries and Differential Label-Free Quantitative Proteomics**—❖ Alan Dabney, Texas A&M University

4:45 p.m.  **Kernel-Induced Classification Tree and Random Forest**—❖ Guangzhe Fan, University of Waterloo

5:05 p.m.  **A Statistical Perspective on Nonlinear Dimensionality Reduction and Manifold Learning**—❖ Ann Lee, Carnegie Mellon University

5:25 p.m.  **Some Recent Advances in High-Dimensional Data Modeling**—❖ Wenbin Lu, North Carolina State University; Hao Zhang, North Carolina State University

5:45 p.m.  **Floor Discussion**

5:20 p.m. **Semiparametric Mixed Analysis on PK/PD Models Using Differential Equations**— Yi Wang, University of Nebraska-Lincoln; Kent Eskridge, University of Nebraska-Lincoln; Shunpu Zhang, University of Nebraska-Lincoln

5:35 p.m. **Floor Discussion**

67 **Longitudinal Data Analysis— Contributed**

ENAR, Section on Health Policy Statistics, Biometrics Section
Chair(s): Nathan Tintle, Hope College

4:05 p.m. **Pool-Testing Samples with Random Intercept**— Peng Chen, University of South Carolina; Joshua M. Tebbs, University of South Carolina

4:20 p.m. **Multiple Parameter Combination of Between-Cluster and Within-Cluster Regression Coefficient Estimates**— Julie A. Stoner, University of Nebraska Medical Center; Brian G. Leroux, University of Washington

4:35 p.m. **Combined Linkage and Association Mapping of Quantitative Trait Loci with Missing Genotype Data**— Ruzong Fan, Texas A&M University; Lian Liu, Texas A&M University; Jeeseun Jung, Indiana University; Ming Zhong, Texas A&M University

4:50 p.m. **Analyzing Correlated Data with Partial and Small Clusters**— Xianqun Luan, The Children's Hospital of Philadelphia; Avital Cnaan, The Children's Hospital of Philadelphia

5:05 p.m. **Using the Power of an F-Test To Compare Designs for Response Surface Models with Random Block Effects**— Sourish Saha, University of Florida; Andre I. Khuri, University of Florida

5:20 p.m. **Minimum Hellinger Distance Estimation of Finite Mixtures of Generalized Linear Models**— Jing Shen, IBM T.J. Watson Research Center; Daniel Hall, University of Georgia; Chenhua Zhang, University of Georgia

5:35 p.m. **Design and Analysis of Multiple Control Arm Studies**— Laura Johnson, National Institutes of Health; Catherine M. Stoney, National Institutes of Health

68 **Hardware, Software, and Algorithms— Contributed**

Section on Statistical Computing, Section on Statistical Graphics
Chair(s): Morteza Marzjarani, Saginaw Valley State University

4:05 p.m. **WISEM for μStat: Web-Based Support for the Analysis of Multivariate Hierarchical Data**— Knut M. Wittkowski, The Rockefeller University

4:20 p.m. **Creating Statistical Web Services Using ASP.NET**— Neil Polhemus, StatPoint, Inc.

4:35 p.m. **Grid Computing**— Abdullah Alnoshan, George Washington University; Shmuel Rotenstreich, George Washington University; Yasmin H. Said, George Mason University; Edward Wegman, George Mason University; Adil Rajput, BearingPoint

5:05 p.m. **Access Control Model for E-Learning System**— Fahad Bin Muhaya, Imam University; Yasmin H. Said, George Mason University

5:20 p.m. **minSpline: An R Package for Fitting Splines**— Sundar Dorai-Raj, PDF Solutions, Inc.; Spencer Graves, PDF Solutions, Inc.

5:35 p.m. **Calculating the Interatomic Distance Distribution from Small-Angle X-Ray Scattering via Curve Averaging**— Lanqing Hua, Purdue University; Alan Friedman, Purdue University; Chris Bailey-Kellogg, Dartmouth University; Bruce Craig, Purdue University

69 **Section on Statistics in Sports Contributed— Contributed**

Section on Statistics in Sports
Chair(s): Michael S. Anderson, Battelle

4:05 p.m. **The Distribution and Simulation of Baseball Winning Percentages**— Richard Auer, Loyola College in Maryland

4:20 p.m. **Assessing Pitcher and Catcher Influences on Base Stealing in Major League Baseball**— Thomas M. Loughin, Simon Fraser University; Jason Bargen, Sprint Nextel

4:35 p.m. **Sorting Algorithms and Sport Tournaments**— Hans Block, KTH, Stockholm, Sweden

4:50 p.m. **Batter-Pitcher Matchups in Baseball**— Hal Stern, University of California, Irvine; Adam Sugano, University of California, Los Angeles
